

Features:

- Available with halogen (PAR30, PAR38), metal halide (PAR30, PAR38), or compact fluorescent (PAR30, PAR38) lamps.¹
- Heavy walled cast aluminum or bronze with all stainless steel hidden hardware for a smooth exterior appearance
- Flush tempered glass lens can be removed for cleaning or replacement, and allows for use of up to two lens accessories.
- High temperature silicone wire pass-thru, gaskets, and O-rings are used to create a water tight fixture.
- Patented 'Rotate & Lock' knuckle gives a positive lock, prevents undesired fixture movement, and allows for a full 360° rotational aiming.²
- CSA tested & certified to US & Canadian safety standards for use in wet locations.

1. Available lamp varies by model.
2. Knuckle is protected under U.S. Patent #6,966,679.
