

Photo: IG1 with AGE finish.

Features:

- Available with LED and MR16 halogen lamps.¹
- Heavy walled cast bronze grate and integral concrete pour collar are suitable for drive over applications.
- Stainless steel brackets allow for 360° rotational and up to 29° vertical aiming.²
- Black anodized aluminum lamp holder uses a flush lens to prevent water pooling and reduce maintenance.
- Lamp holder accepts up to three lens accessories.
- High temperature fitting and silicone seals are used to create a completely water tight lamp compartment.
- CSA tested & certified to US & Canadian safety standards for use in wet locations.

1. Lamp wattage varies by model.
2. Vertical aiming varies by model.
