

Specifications:

Canopy: Machined from 6061-T6 aluminum, C36000 brass, or 304 stainless steel. Contains a $\text{\O}13/16$ " mounting hole and a $\text{\O}5/8$ " wiring hole. Up to three canopies can be mounted on a single strap (the number of canopies that can be safely supported varies by fixture type and material. Contact a Vision3 lighting CSR for allowable combinations). Two side slots allow canopy to slide on strap for easy adjustment during installation.

Strap: 48" long strap assembly consists of a 1" wide, olive green nylon strap stitched to a steel flat hook. Steel hook is coated with Bronze Textured TGIC thermo set polyester powder coat paint, applied over a corrosion resistant chromate finish. Standard strap assembly fits up to 14" diameter trees. (Contact factory for larger applications.) Note: Strap should be loosened periodically to fit tree as it grows. Allow for future tree growth when considering strap requirements.

Buckle: 304 stainless steel ratcheting buckle is corrosion resistant and allows

easy adjustment of strap. Strap hook clips to buckle, allowing easy installation and removal.

Finish: TGIC thermo set polyester powder coat paint available in 14 standard colors. On aluminum model, finish is applied over a corrosion resistant chromate conversion coating. Aluminum model available in one additional metal finish: Clear Anodized. Brass model available in three additional metal finishes: Natural, Polished, and Aged. Stainless steel model available in three additional metal finishes: Natural, Polished, and Brushed.

Electrical: For use with low voltage lighting fixtures only. Requires the use of a remote transformer.

Certification: CSA tested & certified to US and Canadian safety standards for wet location landscape use.
