

PAR16/PAR20 Sign Light **MODEL SL2**

120 Volt, 75 Watt Max., PAR16/PAR20 Halogen

**Specifications:**

**Material:** Machined 6061-T6 aluminum.

**Knuckle:** Rotate and Lock knuckle (protected under U.S. Patents #6,966,679 and #7,108,405) mounts the body to the stem and allows for infinite adjustability (with the fixture in the up or down position). Double taper design allows fixture to hold position during aiming and ensures a solid lock when tightened. See Model MO7 - Rotate and Lock submittal for complete specifications.

**Cap:** Machined caps come in four styles, lock in place with one 18-8 stainless steel set screw, and are sealed to the body with a high temperature silicone O-ring. Regressed caps have drain holes for water drainage from top of lens if mounted in the up position. All caps accept up to three internal accessories, held in place by a stainless steel clip.

**Mount Canopy:** Available with the following mount options: MO3 (Machined Round Canopy), MO15 (Machined Square Canopy), and MO12 (Surface Mount Canopy). Stem is permanently attached to mount canopy using a 304 stainless steel threaded nipple to prevent loosening or sagging. See mount specification sheets for more information. (Mount canopy must be mounted to an appropriate wall or junction box, in such a manner that is capable of holding the weight and torque created by the fixture. Junction box and hardware not included).

**Finish:** TGIC thermo set polyester powder coat paint available in 14 standard colors. Finish is applied over a corrosion resistant chromate conversion coating. Also available in one additional metal finish: Clear Anodized.

**Socket:** Medium Base Porcelain Lamp holder with copper alloy, nickel-plated screw shell and center contact, and 600V, 250° C, PTFE coated 18 ga leads.

**Lamp:** 120 Volt medium base PAR16 halogen up to 75 Watts, or 120 Volt medium base PAR20 halogen up to 50 Watts.

**Lens:** Tempered, clear lens, secured to cap with a high temperature, UV curing, silicone adhesive.

**Certification:** CSA tested & certified to US and Canadian safety standards for wet location wall mount use per UL1598. (Must be mounted in such a manner to properly support the fixture).

**Ordering Information:**
