

CONSTRUCTION

- Bracket - Composed of a "U" shaped curved tube, of Ø2 3/8" (60 mm) aluminium, welded to a decorative collar made of moulded aluminium. The whole is welded to a tubular internal adapter 8" (203 mm) long which slips into a pole and is mechanically held in place by six set screws installed on the later. A three screw fastening system can receive a luminaire equipped with a 2 3/8" (60 mm) SDL adapter.

FINISH

- All surfaces are chemically treated against corrosion through a multi-stage immersion process. The polyester powder finish is applied by a thermostatic process offering an excellent protection conforming to ASTM G7, D-2247 and B-117/D-1654 standards. Standard colours are black, bronze and white with a textured finish. Consult SDL's "Colour Selection Guide" for others.

HARDWARE

- All exterior hardware is made of stainless steel.

WARRANTY

- This product has a three year warranty on the finish and against any manufacturing defect. The ballast and its components are covered by the manufacturer's warranty.
