

**CONSTRUCTION**

- Wall plate - Made of one piece moulded 356 aluminium alloy and is directly bolted to a wall. The wall plate receives a ballast of maximum 175W, mounted on a galvanized steel plate. (Ballast not included with the bracket).
- A** Wall housing - Made of one piece moulded 356 aluminium alloy and has integrated heat dissipation ribs. The housing is mechanically fixed to the wall plate and their sealing is ensured by a high-strength EPDM gasket.
- B** Horizontal support - Composed of an aluminium tube of rectangular section, welded to the wall housing and to a cylindrical adapter. A three screw fastening system can receive a luminaire equipped with a 1 3/16" (30 mm) SDL adapter.
- C** Scroll - Made of a laser cut aluminium part, of heavy gauge, welded to the horizontal support as well as the wall housing.

**FINISH**

- All surfaces are chemically treated against corrosion through a multi-stage immersion process. The polyester powder finish is applied by a thermostatic process offering an excellent protection conforming to ASTM G7, D-2247 and B-117/D-1654 standards. Standard colours are black, bronze and white with a textured finish. Consult SDL's "Colour Selection Guide" for others.

**HARDWARE**

- All exterior hardware is made of stainless steel.

**WARRANTY**

- This product has a three year warranty on the finish and against any manufacturing defect. The ballast and its components are covered by the manufacturer's warranty.

- Interface detail(s) -

Weight — **6,0 lb (2,7 kg)**
