## Design: 'Trillipse Cantilever'

### Design: Paul Brooks

Paul Brooks graduated from Ravensbourne College of Design to go onto the Royal College of Art before joining the design team of Robert Heritage, OBE RDI, in 1983 for a couple of years. After five years in the employ of others, working on diverse products, Paul established his own Design practice in 1988 and has since worked for a host of UK, as well as other European, Furniture manufacturers becoming a well established figure in the Design community with many highly successful designs to his credit, including Trillipse, Enigma, Contour and Rhapsody for Senator.

### Features

Trillipse is a truly versatile creation, for dining, training, seminars, conference and meeting areas, and even boardrooms. Its graceful lines will enhance and complement any environment, and its clear distinctive design provides a chair for almost every occasion, or application. Trillipse can be stacked, with or without arms and as a cantilever, while also having the option to be linked in rows with or without the optional writing tablet or wire storage basket.

Well detailed and highly tooled, Trillipse is constructed from high grade trilipital steel tube with visually inviting, anatomically moulded seat, backrest and armrest. These sculptured items are designed to provide maximum comfort and support during prolonged periods of sitting. Trillipse has become the chair of choice for many organisations.

### Finishes

Frames are available in Black or Silver polyester powder coating as standard, or polished Chrome option. The plastic backrest and armrests are offered in Black as standard, light Grey or dark Grey also available from stock, or optionally the backrest can be translucent Orange, Blue, Lime Green or White. A laminated wooden armrest option is also available. Seats and backs can be upholstered in a wide range of fabrics or leather.

### Marketplace

Trillipse has the broadest possible appeal, particularly where multiple seating is required. A truly striking and versatile design that is equally at home in meeting rooms, conference facilities, training rooms, boardrooms, restaurants or as a visitor chair. Trillipse is a high quality, yet excellent value plastic based multipurpose chair.
