THE MODULAR 8 COLLECTION

## THE MODULAR 8 COLLECTION

Magna Design's 53 year history is founded on its ability to design and manufacture some of the world's most durable and adaptable furniture. From striking reception stations to functionally beautiful conference tables and all the work spaces in between, Magna offers the solutions you're looking for.

The versatility and flexibility of Modular 8 are legendary. With over 3000 items in the catalog, solving complex work space challenges has never been easier. Modular 8 is the most comprehensive case goods line that Magna offers, and with renowned durability built into every piece, you can count on the ability to reconfigure and add on to your Modular 8 system for years to come. Modular 8 provides you the best that both private offices and work station systems have to offer: privacy, versatility and long term flexibility.

Maximize work surface and storage with our large selection of desk shells, desk extensions, returns, connector tops and upper and lower storage components. Use freestanding components to furnish an open area where work station division and privacy are provided with desk mount hutches or privacy panels. Electrical access is supplied with a series of outlet boxes and cord management troughs mounted under the worksurface. Connecting cables and grommets allow access to each work station or between units. The electrical system provides four circuits with a shielded, dedicated circuit for computer use.

*Finishes: WoodPlus Xtra Golden Cherry and matching hardwood edges with Bevel profile and Satin Chrome inlay. Pulls are #19.*

*Right: Finishes: WoodPlus Xtra Golden Cherry, Beveled hardwood edge, Aluminum frame glass doors.*

## MATERIALS & FINISHES

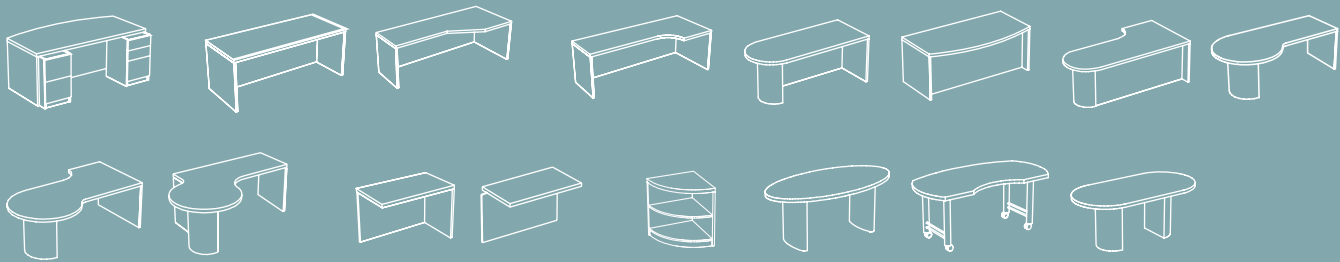

Modular 8 Caseloads are available in a wide variety of WoodPlus, WoodPlus XTRA, ColorPlus, and ColorPlus XTRA finishes including several Oak, Maple, Cherry and Pear wood grains.

Magna WoodPlus/ColorPlus laminate finish consists of a unique combination of wood products and resins thermofused – not glued – under high temperature and pressure into a single wood grained or solid color structural panel. Panel edges are finished in matching or complimentary hardwood or PVC.

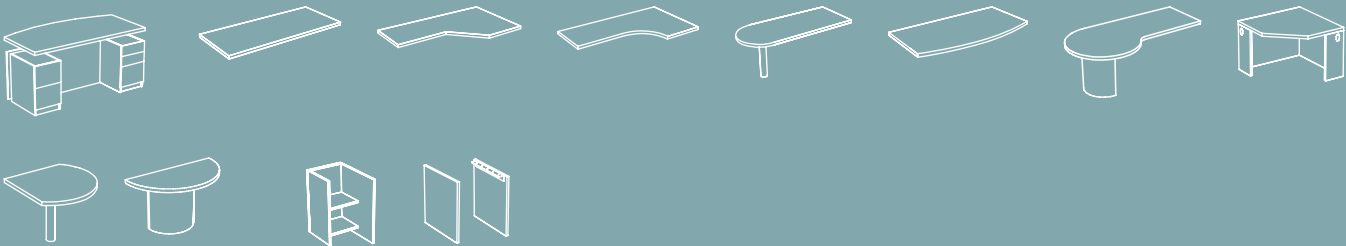

Hardwood edge band finish is a multi-step process consisting of stain, sealer, sanding and a catalyzed lacquer top coat.
