Pricing and Delivery Information

PRICES:

Prices are subject to change without notice and the price list with the later date supersedes all previous price lists.

Prices do not include charges for cartoning, installation, or inside delivery.

Cartoning charges will be added to orders weighing under 250 lb.

DELIVERY:

All prices include delivery outside the Zone 1 region.

Zone 1 includes Washington, Oregon, Alaska, Hawaii, and British Columbia. Prices in Zone 1 reflect Factory Will Call. Zone 1 dealer discounts are adjusted accordingly.

A freight surcharge will be added to Zone 2 orders totaling less than \$10,000 LIST. The freight surcharge will be 10% of NET invoice total.

A Fuel Surcharge will be added to all invoices that include delivery. Please see our website <http://www.magnadesign.com> for current details.

Standard delivery will be made on a dock-to-dock basis or to a sidewalk. Should you have special requirements such as inside delivery or prior notification please contact Magna Design's customer service. Special delivery requirements will be handled on an as-available basis and will likely result in additional charges.

All Shipments are FOB Magna Plant, Lynnwood, Washington.

MagnaCad Information

MagnaCad

The MagnaCad graphic and specification package includes the complete Modular 8 symbol library for 2D layout drawings and 3D isometric illustrations. The Modular 8 symbol library is linked directly to specification and pricing information.

Access Modular 8 components by model or description. Both left and right orientations are provided as needed for each model.

Modular 8 product graphic and specification packages are available for use with 20-20 GIZA software, Data One's Design Express software and Project Matrix's Project Spec software. Software such as 20-20 GIZA, Design Express or Project Spec may be purchased directly from the software provider. Magna provides just the graphic and specification information for our product lines that can be used in these third party software products.

LIFETIME Limited Warranty

Magna Design warrants that its office furniture products are free from defects in design, material and workmanship under normal single shift use and with proper care and maintenance. This lifetime warranty will remain in effect commencing with the date of purchase from Magna Design but only so long as the original purchaser continues to own the product. This lifetime warranty applies to all product and components not excluded below:

- WoodPlus2 finishes on products purchased January 2002 or later - **LIFETIME**
- Drawer slides - **LIFETIME**
- **LIFETIME for ALL PRODUCT and COMPONENTS**, not listed below
- Healthcare products - **ten (10) years**
- Electrical components and functional mechanisms, like keyboard trays - **five (5) years**
- Wood finishes - **three (3) years**.

During the term of this Warranty, MAGNA DESIGN will repair or replace with the same or comparable product or part without charge any product or part that malfunctions or fails to conform to this Warranty. THIS REMEDY OF REPAIR OR REPLACEMENT IS PURCHASER'S SOLE AND EXCLUSIVE REMEDY WITH REGARD TO ANY PRODUCT DEFECT.

This Warranty does not apply to:

- † Any damage caused during shipment.
- † Any product installed or used other than in accordance with MAGNA DESIGN guidelines.
- † Any product that has been repaired, altered, or modified by any person other than MAGNA DESIGN.
- † Any attachment added to a product.
- † Any fabric or upholstery material.
- † Any part or material provided by Purchaser.
- † Any damage caused by misuse, abuse, or negligence on the part of Purchaser or any third party.

THERE ARE NO OTHER WARRANTIES, EITHER EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. UNDER NO CIRCUMSTANCES WILL MAGNA DESIGN BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES ARISING FROM ANY PRODUCT DEFECT.

This warranty is in effect for products shipped on or after **May 1, 1998**.

Terms and Conditions

QUOTATIONS:

Price quotations on non-catalog or special orders will not be valid after thirty (30) days without written approval from Magna Design, Inc.

CREDIT TERMS

Net thirty (30) days after invoice date upon credit approval.

ORDERING :

When ordering, please include complete identification and description of the product being ordered using Magna specifications and terminology. All orders must be in writing.

TELEPHONE ORDERS:

All telephone orders must be confirmed with a written purchase order.

ACKNOWLEDGMENTS:

All orders when accepted will be acknowledged by mail indicating the terms and conditions by which the order was accepted and a description of the items being ordered. Orders will be completed and shipped in accordance with the information on the acknowledgment. If the acknowledged information is incorrect we must receive written instruction to change.

CHANGE ORDERS:

Order entry will take place upon receipt of a purchase order from an authorized Magna Design dealer. Subsequent order changes will be subject to a minimum \$25 processing fee. Actual change order charges may be higher depending on the status of the job at the time a change is made.

CANCELLATIONS:

A 15% minimum restocking charge will be applied on cancellations of standard products. Cancellations will not be accepted on special or custom products.

CUSTOM OR SPECIALS:

A 50% deposit may be required on special or custom product orders. Returns or cancellations on special or custom products will not be accepted.

RETURNED GOODS:

Returned merchandise will not be accepted for return without twenty (20) days prior written notice and written Returned Goods Authorization (RGA) from Magna. Returned goods will be subject to a minimum 15% restocking and refurbishing charge in addition to shipping costs. (See Warranty policy for defective goods.)

LEAD TIMES:

To current accounts with approved credit, *enterable* orders will be made available (in standard finishes) within 2 to 6 weeks depending upon shipping program: Magna NOW! or Standard shipping. All orders are subject to current inventories. Leadtimes may vary according to factory volume.

DELIVERY:

Orders will be delivered in accordance with the delivery dates indicated on the order acknowledgment and partial shipments may be made unless the order instructions indicate that an order must be shipped complete.

SHIPPING:

We reserve the right to use our own discretion in selecting routes and freight carriers. We will attempt to meet any special routing requirements that you may have but assume no liability for damages or costs incurred by our inability to do so.

FUEL SURCHARGE:

Effective June 1, 2007, we implemented a fuel surcharge. Please contact customer service or visit our website for current information.

STORAGE:

Storage charges will be charged on orders not accepted or picked up within five (5) days of acknowledged delivery dates unless we are notified thirty (30) days in advance. Storage will be charged at the rate of 2% for the first fifteen (15) days delay and 3% for each fifteen (15) day period thereafter.

FREIGHT CLAIMS:

Before signing a delivery receipt, make certain that goods are inspected for possible damage. If there is visual damage, record the extent of the damage on all copies of the bill of lading before signing. If there is no visual damage to goods that are cartoned or crated, we strongly suggest that the merchandise be unpacked and inspected immediately. If damages are discovered, save the packaging and contact the carrier immediately for inspection. Claims for damages should be filed with the delivering carrier and payment for the goods may not be withheld pending settlement of the carrier damage claims. Magna assumes no liability for freight damage or the workmanship or cost of repairs made by others without prior written authorization.

SPECIFICATIONS:

All published dimensions and weights are approximate and we assume no liability for errors or inaccuracies in product literature. We reserve the right to modify or change product design and/or delete product models without prior notice.

FINISHES:

We take great care in matching color and texture of materials in our product. However, it is impossible to guarantee exact matching in all cases.

Specifications - Modular 8

Modular 8

The Modular 8 group is designed to offer the ultimate in modular flexibility.

It integrates both desk shell based and worktop/ storage based systems. The extremely wide range of shell and worktop sizes, configurations, modular storage, privacy screen and electrical options combine to offer a high degree of space plan application.

Modular 8 is offered in a wide variety of finish and detail options. Magna WoodPlus/ColorPlus laminate finishes will satisfy and compliment any interior specification.

SPECIFICATION HIGHLIGHTS

Laminate

All exposed laminate surfaces shall be Magna WoodPlus/ColorPlus laminate. Standard finishes shall include WoodPlus wood grain patterns and ColorPlus solid or patterned colors as described in the finishes section.

Tech Components

Tech pedestals and tech overcounter cabinets feature a black case assembly with laminate doors or drawer fronts. Overhead Tech cabinets feature a black case with laminate end panels.

Edge bands

WoodPlus edge on tops and end panels are banded with 3mm PVC.

Standard edge on tops and end panels are banded with 3mm hardwood.

Detailed edge tops are banded with 3/8" hardwood.

Drawer fronts, door fronts and shelves are banded with matching laminate as determined by finish.

Tops

All Modular 8 tops are 1-3/4" thick. The three ply balanced construction consists of 42 LB industrial board core surfaced with either WoodPlus/ColorPlus standard high-pressure laminate with balancing plastic backing sheet.

WoodPlus edges are 3mm woodgrained PVC with an 3mm smooth, neo-classic or reeded detail.

Standard edges are 3mm hardwood with a 3mm smooth, neo-classic or reeded detail.

Alternate detailed edges are 3/8" hardwood, offered in five styles: bevel, classic, radius, reeded and transitional.

End panels

All end panels are 1-1/8" thick, three ply balanced construction. Bottom edges of end panels are additionally banded with a Standard or WoodPlus edge band to insure a structural base for leveling glides.

Front, Modesty and back panels

All desk front, modesty and back panels are 3/4" thick, three ply balanced construction.

WoodPlus laminate panels are constructed with grain patterns either horizontal (i.e. parallel to the work surface) or vertical. Vertical grain patterns are available up to 60" wide.

Drawers

All drawers are constructed as a five sided box with separate attached drawer faces. This technique ensures superior structural integrity and easy drawer front replacement.

Drawers are of miter fold construction with a black vinyl finish and matching high density hardboard bottom.

The current styles of pulls available for use in Modular 8 are #10, #12, #13, #14, #15, #18, #19. Special request pulls are available, please contact Customer Service at 800.233.2304.

Filing Capabilities

All FILE drawers are provided with file holders configured for letter front to back and legal side to side filing.

Hardware is finished in a matte black. All LATERAL FILE drawers are provided with file holders configured for letter and legal side to side filing. Optional FA File Adapters are available for front to back filing.

Drawer Suspension

Pedestal File drawers utilize full extension progressive action ball bearing, 150 LB rated slides.

Box drawers utilize three quarter extension ball bearing, 75 LB rated slides.

Lateral File drawers utilize full extension progressive action ball bearing, 150 LB slides. Lateral file cabinets are equipped with an anti-tilt device for safety.

Hinged Doors

Are available in WoodPlus, both rectangular and (on hutches and overheads) shaped styles, Frosted glass doors with Aluminum or WoodPlus frames. No pulls or locks on glass doors. Optional clear glass doors are available.

The current styles of pulls available for use in Modular 8 are #10, #12, #13, #14, #15, #18, #19. Special request pulls are available, please contact Customer Service at 800.233.2304.

Locks

Locks are included on all drawer pedestals and lateral file drawers. Locks are available on all other door storage units as an option. Removable lock cylinders provide for keying alike or re-keying in the field. Locks must be factory fitted and are not retro-fittable.

Adjustable Glides

All free standing components are equipped with threaded stem adjustable glides. Glides are set in threaded inserts fitted in a solid hardwood or PVC edge band for structural integrity.

Wire Management

Mod Trac 8 is an 8 wire UL Listed electrical system supplying up to four circuits. The power trac is self enclosed with pre-wired outlets and male/female connection plugs. Mod Trac, with its attached wire management trough, is mounted to the under side of a work surface or the inside of a modesty panel. An electrician is required to hardwire the power cable to the wall or floor connection point; thereafter, work stations may be connected serially by plugging one trac cable to another.

A work station and electrical outlet plan is required to establish components and hardware needed for assembly. Grommets and wire managers are available on most Modular 8 pieces. Finish is satin black.

Specifications - Modular 8

Overhead, wall mounted

Wall mounted overhead cabinets are available in lengths of 30", 42", 48" and 60". Note: 60" are ONLY available as "Tech" cabinets. Flipper door, Hinged door and open cabinets are available.

Modular Privacy Panels

M8P modular privacy panels are designed to provide worksurface mounted privacy screens for freestanding modular components. Each panel includes a wood trim top cap and two fabric wrapped steel posts. They can be mounted on shells, desk extensions and desk connectors. The connectors (BMP) must be added as an option to the shell, desk extension or desk connector when the components are initially ordered. M8P-BMP connecting brackets MUST be factory fitted and are not field retro-fittable. Privacy panels can be mounted on the back, left or right side (from the user's position). Please provide a FLOOR PLAN with your order.

Listings

Modular 8 components and Mod Trac Electrical are Listed under UL #1286 for all laminate finishes.

Electrical Packages - Modular 8 Specification

Mod Trac Electrical

Mod Trac is an 8 wire, 15 Amp UL Listed electrical system supplying up to four circuits. The power tray is self enclosed with pre-wired outlets and male/female connection plugs. Mod Trac, with its attached wire management trough, is mounted to the under side of a work surface or the inside of a modesty panel. Color coded connectors and snap-on components require no tools to install or modify a configuration. An electrician is required to hardwire the power cable to the wall or floor connection point. There are two circuit options for each power entry. In the "3+1" option, five wires supply three circuits (1 ground, 3 hot, 1 neutral); in the "2+2" option, four wires supply two utility circuits (1 ground, 2 hot, 1 neutral) and four additionally shielded wires supply two isolated circuits (1 ground, 2 hot, 1 neutral). The entire Mod Trac system is directional and multiple power entry cables cannot be inadvertently connected.

Power Boxes

The power box is self enclosed with pre-wired outlets and male/female connection plugs. It can be mounted to the underside of a worksurface or to a modesty panel or support rail either with or without the MJT Mod Trac wire manager. MOS power boxes have pre-wired outlets on one face. They are standard with a 50" connecting cable and a 12" continuation cable.

"3+1" option standard duplex configurations:

MOS3+1/2 power box has two duplex: (1,2) and (4,4)isolated.

MOS3+1/3 power box has three duplex: (1,2), (3,3) and (4,4)isolated.

MOS3+1/4 power box has four duplex: (1,1), (2,2), (3,3) and (4,4)isolated.

"2+1" option standard duplex configurations:

MOS2+2/2 power box has two duplex: (1,2) and (3,4)isolated.

MOS2+2/3 power box has three duplex: (1,1), (3,4)isolated and (2,2)

MOS2+2/4 power box has four duplex: (1,1), (2,2), (3,3)isolated and (4,4)isolated.

Pass through cables

QPC pass through cables enable power to continue when there is more than 62" (the 12" continuation cable of the previous power box and the 50" connecting cable of the next power box) between power boxes.

Power Entry

MPE72-C is 6'-0" long liquidtight power entry cable with wires exposed on one end for hardwiring into building power. The MPE72-C power entry cable snaps together with the power box 50" connecting cable or with any pass through QPC cable.

Mod Trac to Quad Trac power feed

MQP36 cables allow power to be fed into Quad Trac power trays from Mod Trac components.

Listing:

For UL listing the total capacity per each circuit is 26 outlets (13 duplex), this is a maximum of 104 outlets (52 duplex) per power entry. The maximum length of any circuit (measured from the power entry to the last outlet on the circuit) is 53 feet (at 3% voltage drop).

For CSA listing the total capacity per each circuit is 24 outlets (12 duplex), this is a maximum of 96 outlets (48 duplex) per power entry.

Important Ordering Notes

A FLOOR PLAN of your Modular 8 layout is required to process your order. All hardware needed for assembly will be provided based on your floor plan.

Please indicate all locations of electrical outlets on your floor plan. Mark dedicated circuit outlets with the letter D. To pass the power cables from one workstation to another, may require vertical grommets in the end panels of the furniture components. These must be ordered as an option to the furniture component when you initially order them. The cutouts in the modesty panels of Modular 8 components will accommodate the cables.

Specifications subject to change without notice.

Specifications - Modular 8 Finishes

Finishes

Modular 8 Caseloads are available in a wide variety of WoodPlus, WoodPlus XTRA, ColorPlus, and ColorPlus XTRA finishes.

Magna WoodPlus / ColorPlus laminate finish consists of a unique combination of wood products and resins thermofused - not glued - under high temperature and pressure into a single, wood grained or solid color structural panel. Panel edges are finished in matching or complimentary hardwood or PVC.

Hardwood edge band finish is a multi step process consisting of stain, sealer, sanding and a catalyzed lacquer top coat.

Tackable fabric tiles are covered with Class 1 or A screen fabrics. Please visit the Guilford of Maine web site for current colors and availability at www.guilfordofmaine.com.

For Top surfaces only

Pionite or WilsonArt laminates are available at \$150 LIST upcharge per pattern selected, each order.

Special Top Laminates must meet the following criteria:

Dark solid colors, including Black, are NOT available for tops

Must be available in 5 x 12 sheets (horizontal grade).

Acceptable finish is matte (Pionite, Suede or Wilson Art #60).

Glossy, Chemsurf finishes are not acceptable.

Acceptable texture compatible with applied edges.

Modular 8 - Edge and Pull Choices

Please Specify:

for Worktops

- T - Worktop finish
- Top Edge profile
- TE - Top Edge finish
- Top Inlay (with Detailed Edge)

for Lower

- LC - Cabinet case, Modesty Panel, End Panel finish
- LCE - lower case edge,
- LF - Lower Cabinet Face finish
- Pull Number

for Hutches/Overheads/Towers

- UC - Inset Top, ends and back finish
- Top Over edge profile
- UCE - upper case edge,
- UF - Door finish

Finishes -

for Work surfaces, End Panels, Modesty Panels, Cabinet Cases, Door and Drawer faces

WoodPlus

- WP-31 Medium Cherry
- WP-71 Dark Cherry
- WP-73 Cognac
- WP-41 Natural Maple
- WP-81 Fusion Maple
- WP-45 Anigre
- WP-23 Cordovan
- WP-61 Pear
- WP-04 Solar Oak
- WP-48 Sipping Seattle Java (Hi-Brite³)

ColorPlus

- CP-76 Espresso (verticals only)
- CP-98 Slate (verticals only)
- CP-88 Black (verticals only)

Column Supports

- P1 Black
- P8 Silver

Additional Finishes:

The Panolam/Pionite line of woodgrain, solid and patterned laminates are available for Modular 8 tops, cases, end panels, drawer and door faces. (about 100 finishes)

Edges are WoodPlus PVC edge in complimentary or contrasting color.

Hardwood edges to match are available for a one time charge of \$268 LIST.

Leadtime is four to six weeks.

Pricing is based on order size:

- List price over \$30,000 Add 5% for overall finish.
- List price below \$30,000, Contact Customer Service @ 1-800-233-2304.

Or for Worksurfaces only: \$150 List per finish color per order.

Angled Corner Unit, End Panels

Description	Model Number	List Prices - Laminate Wood Edges			Available Cabinet Space		Wgt
		WoodPlus	Standard	Detailed	E	F	
Angled Corner with End Panels	SCA8-EP-42-24	1293	1525	1767			176
	SCA8-EP-48-30	1367	1599	1841			206

Radius Corner Unit, End Panels

Radius Corner with End Panels	SCR8-EP-42-24	1582	1814	2056			176
	SCR8-EP-48-30	1669	1901	2143			206

Hardware

Connecting hardware (2 each 8 ANGLE BRACKETS) is included to attached SCA8 or SCR8 units to other modular units.

Usage

Use SCA8-EP or SCR8-EP units with 2 Desk Extensions (DE8) or with MT8 Modular Tops and supporting cabinets. See Example below.

Model Numbers:
SCA 8 EP - A B
e.g. SCA 8 EP - 42 - 24
or SCA 8 EP - 48 - 30
Height is 29-5/8"

Angled Corner Unit, Column

Angled Corner with column	SCA8-COL-42-24	947	1048	1281			141
----------------------------------	----------------	------------	------	------	--	--	-----

Specify Column finish as Black or Silver.

Radius Corner Unit, Column

Radius Corner with column	SCR8-COL-42-24	1223	1324	1557			141
----------------------------------	----------------	-------------	------	------	--	--	-----

Specify Column finish as Black or Silver.

Hardware

Connecting hardware (2 each 8 ANGLE BRACKETS) is included to attached SCA8 or SCR8 units to other modular units.

Usage

Column corner units allow access to wall electrical and phone outlets, but must be supported as follows: Use SCA8-Col and SCR8-Col only with 2 S8 Shells with 12 End Panels or with 2 MT8 Tops that each have cabinets. Do not use with Hutch. See example below.

Edge Options Information

Modular 8 Tops are 1 3/4" thick, available with the following edge options:

WoodPlus (PVC)

WoodPlus 3 mm PVC edge:
WPMS - 3 mm Smooth
WPMR - 3 mm Reeded
WPMN - 3 mm Neo Classic

Standard Wood Edges

Standard 3 mm Wood Edge:

			Wide	Deep	High	
 Black PVC Inlay	M8-INLAY-BLACK-RS Rectangular Small	275				
	M8-INLAY-BLACK-RL Rectangular Large	413				
	M8-INLAY-BLACK-SS Shaped top Small	520				
	M8-INLAY-BLACK-SL Shaped top Large	712				
Inlay is available ONLY with a Detailed edge. Small tops are up to 48 long; large tops are longer than 48.						
 Brushed Brass Inlay	M8-INLAY-BRASS-RS Rectangular Small	413				
	M8-INLAY-BRASS-RL Rectangular Large	629				
	M8-INLAY-BRASS-SS Shaped top Small	826				
	M8-INLAY-BRASS-SL Shaped top Large	1053				
Inlay is available ONLY with a Detailed edge. Small tops are up to 48 long; large tops are longer than 48 .						
 Satin Chrome Inlay	M8-INLAY-CHROME-RS Rectangular Small	413				
	M8-INLAY-CHROME-RL Rectangular Large	629				
	M8-INLAY-CHROME-SS Shaped top Small	826				
	M8-INLAY-CHROME-SL Shaped top Large	1053				
Inlay is available ONLY with a Detailed edge. Small tops are up to 48 long; large tops are longer than 48 .						
 Grommet	GR	48	4.25	2.75		
Grommet opening: 2.00 X 3.50 . Specify location: Left is GRL, Right is GRR, Center is GRC. Also available for rectangular tops: End (centered front to back at end of top) is GRE.						
 Non-Standard Location	GRX	96	4.25	2.75		
Grommet opening: 2.00 X 3.50 . Grommet in a non-standard location. Please include drawing to specify location.						
Vertical Grommet	OPTION-GRV	48	4.25	2.75		
Grommet opening: 2.00 X 3.50 . Specify Location on Left end panel or Right end panel.						

Modular 8 Shells

Options for Shells

Description	Model Number	List Price	Dimensions			Wgt
			Wide	Deep	High	
Work Height Triplex 	WHT-INSERT	148	3.5	1.75	5	1
WHT fits into an existing GR grommet; GR must be ordered separately. WHT is a work surface pop-up with three outlets and is provided with a 6 foot, 15 amp cord. Pull-up size: 1-3/4 x 3-1/2 x 5-1/8 high when extended. Finish is satin Black.						
Power / Data Combination 	PDC-INSERT	138	3.5	1.75	5	1
PDC fits into an existing GR grommet; GR must be ordered separately. PDC is a work surface pop-up with two outlets and is provided with a 6 foot, 15 amp cord. It accepts one receptacle plate to be supplied by your electrical contractor or supplier. PDC does not include any receptacles or receptacle plates. Pull-up size: 1-3/4 x 3-1/2 x 5-1/8 high when extended. Finish is satin Black.						
Data / Voice Receptacle 	DVR-INSERT	66	3.5	1.75	5	1
DVR fits into an existing GR grommet; GR must be ordered separately. DVR is a work surface pop-up that accepts various receptacle plates to be supplied by your electrical contractor or supplier. DVR does not include any receptacles or receptacle plates. Pull-up size: 1-3/4 x 3-1/2 x 5-1/8 high when extended. Finish is satin Black.						
Interport 	INTERPORT-PLUG-120	236	7	5	2	2
Interport provides work surface height power and data distribution and can be installed side by side. Cords slip through holes, and unit may be used in open or closed position. Includes 2 simplexes, 2 voice/data ports and 10' , 15 amp cord. UL listed. Because of larger cutout required, please call Customer Service to confirm available clearance.						
Miniport 	MINIPORT-PLUG-120	197	7	3	2	2
Miniport provides work surface height power and data distribution and can be installed side by side. Cords slip through holes, and unit may be used in open or closed position. Includes 2 simplexes, 2 voice/data ports and 10' , 15 amp cord. UL listed. Because of larger cutout required, please call Customer Service to confirm available clearance.						
Keyboard Tray cutout only 	KTO	254	23.63	9.13	0	0
Use with Adjustable or Pull out keyboard tray accessory. Specify location: Left, Right, Center or Angle.						
Privacy Panel (M8P) Brackets 	BMP	174				5
Specify BMP location: Left (shown in illustration), Right or Back. BMP cannot be retrofitted; must be ordered at time of manufacture. One pair of brackets is included.

Options for shell based lowers

Options for Lower Cabinets

Description	Model Number	List Price	Dimensions			Wgt
			Wide	Deep	High	
Locks for Lower Cabinets	LOCK-DOOR(S)	87				
	LOCK-CPU	87				
	LOCK-PC	87				

Applied Finished Backs	FB	191				16
	Finished Backs are required when using Pedestals with Inset or Flush Modesty Panel.					

FB Finished Back

Silver Base Accent	BASE-SILVER-ACCENT-PED-CAB	79				
	BASE-BLACK-ACCENT-PED-CAB	79				
Price per each pedestal or cabinet. Applied Silver or Black kick.						

Silver Accent on Kick

File Adapters for Lateral File Drawers	FA	47				
	For front to back filing in Lateral File Drawers. Price per drawer.					

Accessories for Lower Cabinets

Pencil Tray Insert	PTI	8	11	5.5	1	1
	Pencil tray includes brackets for side-to-side hanging in box drawers. (Moulded, Black finish) One Pencil Tray is included in each pedestal with box drawers. Order PTI for additional trays.					

Modular 8 Storage Based - How to create a layout

Step 1: Layout what you want

This layout should include the following:

- ∞ TOPS
- ∞ LOWER STORAGE
- ∞ HUTCHES, WALL MOUNTED OVERHEADS
- ∞ MODESTY PANELS, as desired
- ∞ BOOKCASES, LATERAL FILES, TACKBOARDS, ETC.

Step 1 examples:

30 x 72" Top with
Single Storage Pedestal

30 x 72" Radius End Desk
48" Return with Storage Pedestal
Hutch Spanning Return & Desk

U shape unit with 30 x 72" Desk
48" Bridge and 24 x 72" Credenza
Flipper Door Wall Mount Overheads

Then, use the next two steps to complete the assembly, build in structural stability and create a complete list of necessary components.

Step 2: Support both ends of every hutch and every top

2A: Each HUTCH needs support directly below each end.

- ∞ Pedestal PF-I, Lateral File FLF-, End Panel EP8- MUST match the depth of the top when a hutch is placed on top.
- Hutches NOT available on 36" deep tops.

The following components can be used to support a hutch end

- ∞ Pedestal PF-, Lateral File FLF-, Combo-cabinet CF-, Door storage FDS-, Open Storage FOS-
- ∞ End Panel EP8-
- ∞ Modesty Panel MP8-

2B: Each end of DESK and CREDENZA top requires support directly below it.

One of the DESK top or CREDENZA top ends MUST have one of the following:

- ∞ Pedestal PF-, Lateral File FLF-, Combo-cabinet CF-, Door storage FDS-, Open Storage FOS-
- ∞ Corner Assembly SCA8...EP or SCR8...EP
- ∞ Adjacent Bookcase or Lateral File ST8-

The other end of the DESK top or CREDENZA top may have any of the above support items or

- ∞ End Panel EP8-

Note that if supporting a hutch placed above end panels at both ends of a DESK or CREDENZA top, then one of the end panels must be removed and either LOWER STORAGE, BOOKCASE or LATERAL FILE must support one end of this top.

2C: Each end of BRIDGE and RETURN top requires support.

Any of the following can support either, or both, ends of a BRIDGE or RETURN top.

- ∞ Pedestal PF-, Lateral File FLF-, Combo-cabinet CF-, Door storage FDS-, Open Storage FOS-
- ∞ Corner Assembly SCA8...EP or SCR8...EP
- ∞ Adjacent Bookcase or Lateral File ST8-
- ∞ End Panel EP8-
- ∞ Top connecting hardware such as Splice Plate Ovals or Splice Plate Oval with Angle Bracket

Modular 8 Storage Based - How to create a layout

Step 3: Check the top SPAN for length and add additional support as needed

3A: Spans less than 56" require NO additional support

- ∞ Modesty Panels may be used, but are not required.

3B: Spans over 56" require the addition of one of the following:

- ∞ Modesty Panel (matches top length) MP8-
- ∞ End Panel placed mid-span EP8-...B

Credenza span = 66 7/8"
Desk span = 66 7/8"

Modular 8 Storage Based Work Tops

For all orders with Storage Base parts, please provide a layout of the product ordered.

Providing a layout with your order offers us an opportunity to confirm the completeness and structural stability of the furniture.

Storage Based Worktops - hardware, options, accessories

Connecting Hardware for Worktops

Description	Model Number	List Price	Dimensions			Wgt
			Wide	Deep	High	
Splice Plate Oval	SPLICE-PLATE-OVAL-2	18	3	5	1	2

Used to connect two units of the same height, e.g. DE8 Extension at right angle to S8 Shell.

SPLICE-PLATE-OVAL-2

Splice Plate, Angle Bracket	SPL-AB	39	0.25	0	0	3
------------------------------------	--------	----	------	---	---	---

Used to connect work surface with 12 or 18 end panel to another worksurface. Consists of one 5 SPL and one 8 angle bracket.

Angle Brackets	AB-8	24	1	8	0	1
-----------------------	------	----	---	---	---	---

Used to connect S8 shell unit with DE8 extension unit when used in a straight line.

Usage To avoid interference with modesty panels, use a 24 SPL or AB with 30 and 36 Desk Extensions (DE8).

Options for Work Tops

Description	Model Number	List Price	Dimensions			Wgt
			Wide	Deep	High	
Work Height Triplex	WHT-INSERT	148	3.5	1.75	5	1
WHT fits into an existing GR grommet; GR must be ordered separately. WHT is a work surface pop-up with three outlets and is provided with a 6 foot, 15 amp cord. Pull-up size: 1-3/4 x 3-1/2 x 5-1/8 high when extended. Finish is satin Black.						
Power / Data Combination	PDC-INSERT	138	3.5	1.75	5	1
PDC fits into an existing GR grommet; GR must be ordered separately. PDC is a work surface pop-up with two outlets and is provided with a 6 foot, 15 amp cord. It accepts one receptacle plate to be supplied by your electrical contractor or supplier. PDC does not include any receptacles or receptacle plates. Pull-up size: 1-3/4 x 3-1/2 x 5-1/8 high when extended. Finish is satin Black.						
Data / Voice Receptacle	DVR-INSERT	67	3.5	1.75	5	1
DVR fits into an existing GR grommet; GR must be ordered separately. DVR is a work surface pop-up that accepts various receptacle plates to be supplied by your electrical contractor or supplier. DVR does not include any receptacles or receptacle plates. Pull-up size: 1-3/4 x 3-1/2 x 5-1/8 high when extended. Finish is satin Black.						
Interport	INTERPORT-PLUG-120	236	7	5	2	2
Interport provides work surface height power and data distribution and can be installed side by side. Cords slip through holes, and unit may be used in open or closed position. Includes 2 simplexes, 2 voice/data ports and 10', 15 amp cord. UL listed. Because of larger cutout required, please call Customer Service to confirm available clearance.						
Miniport	MINIPORT-PLUG-120	197	7	3	2	2
Miniport provides work surface height power and data distribution and can be installed side by side. Cords slip through holes, and unit may be used in open or closed position. Includes 2 simplexes, 2 voice/data ports and 10', 15 amp cord. UL listed. Because of larger cutout required, please call Customer Service to confirm available clearance.

Storage Based Cabinets

Freestanding CPU Cabinets

Description	Model Number	List Price - Laminate		Dimensions			Wgt
		WoodPlus	Wood Edge	Wide	Deep	High	
24" deep Freestanding CPU Cabinets	PF-CPU2424	1075	1075	24	22.75	27.5	90
	PF-CPU3024	1102	1102	30	22.75	27.5	96

Inside clearance for CPU: 21-1/2 (for 24 wide cabinet) or 27-1/2 (for 30 wide cabinet), 21-5/8 deep and 9-3/8 high. Specify Pull number for file drawer. Touch latch is standard on CPU door regardless of pull selection.

PF-CPU2430

30" deep Freestanding CPU Cabinets	PF-CPU2430	1075	1075	24	28.75	27.5	100
	PF-CPU3030	1102	1102	30	28.75	27.5	106

Inside clearance for CPU: 21-1/2 (for 24 wide cabinet) or 27-1/2 (for 30 wide cabinet), 27-5/8 deep and 9-3/8 high. Specify Pull number for file drawer. Touch latch is standard on CPU door regardless of pull selection.

Usage

CPU Cabinets must be used with an assembly of at least 72" long to provide a sufficient counterbalance to the leverage obtained when shelf is fully extended. CPU cabinet cannot stand alone with just a top.

Freestanding Printer Cabinets

24" deep Freestanding Printer Cabinets	PF-PC2424	1075	1075	24	22.75	27.5	90
	PF-PC3024	1075	1075	30	22.75	27.5	96

Inside clearance for printer: 21-1/2 (for 24 wide cabinet) or 27-1/2 (for 30 wide cabinet), 21-5/8 deep and 21-3/8 high. Specify Pull number.

PF-PC2430

30" deep Freestanding Printer Cabinets	PF-PC2430	1102	1102	24	28.75	27.5	100
	PF-PC3030	1102	1102	30	28.75	27.5	106

Inside clearance for printer: 21-1/2 (for 24 wide cabinet) or 27-1/2 (for 30 wide cabinet), 27-5/8 deep and 21-3/8 high. Specify Pull number.

Usage

Printer Cabinets must be used with an assembly at least 72" long to provide a sufficient counterbalance to the leverage obtained when the printer shelf is fully extended. MAXIMUM NET WEIGHT for printer and paper is 90 lb.

Order top surfaces separately. See end of Storage Based Work Tops section, Rectangular Work Tops.

Privacy Panel Mounting Brackets	BMP	175	175	175	2	2.25	1.75	5
---------------------------------------	-----	-----	-----	-----	---	------	------	---

Order as an option for Shell Based worksurfaces. Specify locations as Left end, Right end or Back of shell or top from user's position. BMP cannot be retrofitted.
Notes: Panels are connected to work surface by means of steel posts and a pair of connector brackets installed in the corners of an 1-3/4" top.

PLEASE PROVIDE A FLOOR PLAN WITH YOUR ORDER.

Usage

NOTES: Each panel includes two steel posts with fabric covering and wood cap.

APPLICATION: M8P Panels can be applied to the following products:

Shells Extensions
S8 DE8
SA8
SR8

Panels can be applied to the above products or combinations of the above products with widths in 6" increments from 36" to a MAXIMUM of 72". Panels can be applied at the backs of shells or desk extensions from 36" long to 72" long. M8P panels can be used as "wing" panels, 24", 30", 36" and 42" for the ends of shells or desk extensions.
RESTRICTION: One panel cannot span two products - see 2nd example at left.

Wood Profile Trim Options

Prices above include #1 Radius panel trim profile. For other profiles, add \$27 LIST per panel.

Standard
#1 Radius

#2 Bevel

#4 Fluted

#5 Reeded

#6 Transitional

For BMP (pair) brackets to mount M8P panel, Add \$ 165. Specify Location: Left (end), Right (end) or Back.

MAGNA NOW!: Privacy Panels are NOT available on MAGNA NOW!

Notes:

Custom Sizes:

For custom length unit between two standard sizes, use price of next larger size and add \$150. Begin model number with X-.

Options

Options are built-in at factory

For TR8, TC8: Notch for fit to Hutch: N (L or R)

Notch is specified on Left or Right from user's side.

Specify Notch with or without FPI in hutch.

For more information on these and other available options and accessories, see all Options and Accessories at the end of this section.

MAGNA NOW!

Modular 8 products with WoodPlus edges are available on **MAGNA NOW!** - our 10 day shipping program.

You must clearly mark your Purchase Order as **MAGNA NOW!**

For large orders, please check with Customer Service as factory volume may affect leadtime.

Wall Mounted Overhead Cabinets

Overview - Modular 8 Assembly TECH Overhead Cabinets

TECH Flipper Door Cabinet, Wall Mounted, see Pg 90

TECH Hinged Door Cabinets, Wall Mounted, see Pg 90

On TECH overhead cases, you choose the finish for the doors and ends of the case. The doors fully overlay the case, including the valance. The TECH case top, back, bottom and valance are black. The TECH case is designed for overheads up to 60" long.

Overview - Standard Overhead Cabinets

Standard Flipper Door Cabinet, Wall Mounted, see Pg 91

Hinged Door Cabinets, Wall Mounted, see Pg 91

Overhead Shelf Storage, Wall Mounted, see Pg 91

Fabric panels over 60" long are provided in 2 pieces.

Available in 1 increments from 12 x 24 to 48 x 96 . For price, use the next larger size shown. Panels over 72 long are two pieces.

Pricing is for standard Guilford fabrics, Magna Grades A, B, C, including 4052 Belgrade, 2823 Hopscotch, 2100 FR701, 2818 Orissa, 3548 Raku, 4158 Network.

For other Guilford fabrics, contact factory for availability, lead time and pricing.

Fabrics are applied so that length of roll runs vertically on panels.

WoodPlus Smooth 3 mm PVC edge

Standard Smooth 3 mm Wood Edge

All edges are 3mm Smooth PVC or 3mm Smooth Wood.

Modular 8 Electrical System - MOD TRAC

Overview - Modular 8 Electrical System, MODTRAC

Power Sources

- Power can be connected to Panel Electrical from floor, from power pole or from ModTrac system.
- Power can be connected to Modular Electrical from floor, from power pole or from QuadTrac system as shown.

Component List

- Work Light, WL, with cord routed to power box through grommet in shell.
- Grommet, GR, optional for any work surface. Left, Right or Center location.
- Pass Through Cable, QPC, continues power to another station.
- J Track Cable Trough, MJT, holds cable and cord off floor.
- Power Box, MOS, with two outlets, 50" connecting cable and 12" continuation cable.
- Work Height Triplex, WHT, in shell top powered through Power Box.
- Pass Through Cables
- J Track Cable Trough
- QMP30 feeds power from Quad Trac Panel Electrical System to Mod Trac System.
- Power Entry Cable, QPE72-180R, feeds power to Quad Trac power tray, QPT, inside raceway cover from floor monument.

- Grommets, GR, optional for any work surface. Left, Right or Center location.
- J Track Cable Trough, MJT, holds cable and cord off floor and provides mount for Power box. Data and Voice outlet can be placed in cutout provided.
- Vertical End Panel Grommet, GRV, allows cables to pass from station to station.
- Power Entry Cable, MPE72-C, feeds power to Mod Trac power box from floor monument.
- 50" connecting cable part of Power Box unit, connects to power entry.
- Power Box, MOS, with two outlets.
- 12" continuation cable part of Power Box unit allows power to continue to next work station.

Modular 8 Electrical System - MOD TRAC

Mod-Trac Electrical

Description	Model Number	List Price	Dimensions			Wgt
			Wide	Deep	High	
Power Pole	P10	557		2	125	18

Use to access power from ceiling grid. Four (4) built-in grounded outlets. Adjustable from floor to ceiling.

J-Track Wiremanager

MJT-MP	66	72	2.5	5	4
Mounts on Modesty Panel with or without Power Boxes.					

Mod Trac Power Entry

MPE72-C	195	0	0	5
Power entry uses same wiring diagram for both 2+2 and 3+1 power boxes.				

Pass through cables (uses same cable as QUAD TRAC)
