Wok Javier Mariscal

A chair is a provisional refuge, a safe haven when you're tired, or perhaps when people are looking at you. That's why they're so important and perhaps why there are more chairs than people. The Wok easychair came from

the idea of a nut, a coconut, of a comfortable inner space protected by a solid outside shell, which when properly cut with a deft stroke, presents the secret it was hiding: its rich texture, solemn colouring and

ergonomic shape. For sitting and waiting, reading, conversing, or even thinking about why there are so many chairs and they're all so different. Presented in the entire series of finishes in our catalogue.
