WAUSAU TILE

America's One Source for Pavers

The Color Difference

Stoney Creek Pavers are specially manufactured to achieve a beautiful, natural look, reflecting the elements found in the various regions of the United States. To create the natural beauty of these pavers, our manufacturing process assures that no two pavers are exactly alike.

SC2228

SC2728

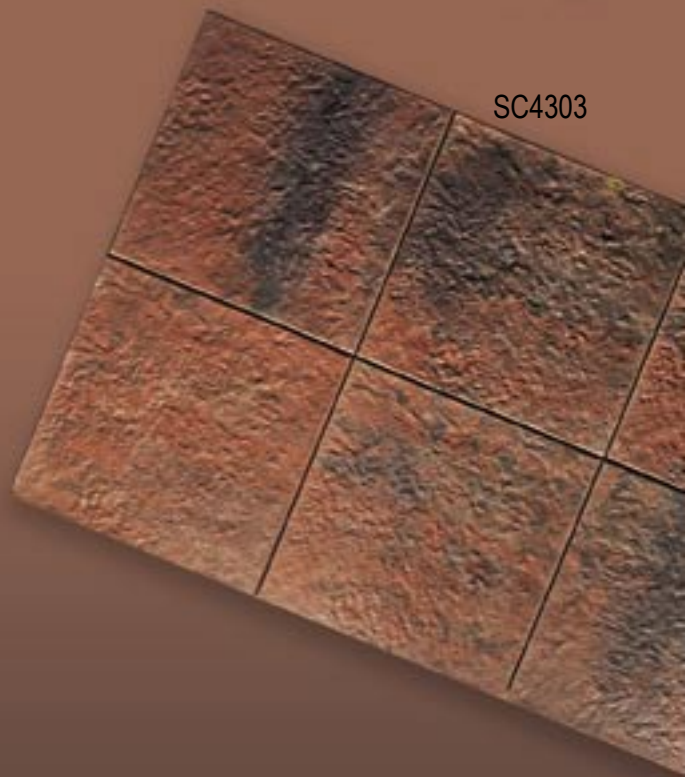

Indiana

The gray and buff tones of limestone are blends native to the midwest area visible in the Indiana series.

Natural Attraction

The Stoney Creek series of pavers are popular with architects, designers, and builders, wishing to have their projects reflect the natural beauty of one of six distinct areas of the country.

SC4303

RedStone

The RedStone pavers consist of a unique blending of red and black.

At Your Service

The key to ordering the Stoney Creek Paver series that will best suit your needs is by requesting a sample board, and then calling upon our sales consultants to answer your questions or discuss any concerns you may have.

SC7869

SC7779

Arizona

The Arizona Series provides a range of desert tones similar to those found in the southwest regions.

Installation Guidelines

In order to achieve your desired effect, the attractive Stoney Creek pavers should be installed as indicated in the instructions that will accompany the pavers. In trying to match colors, your installers may mean well, but the results won't be what you expected.

SLT/SC3519

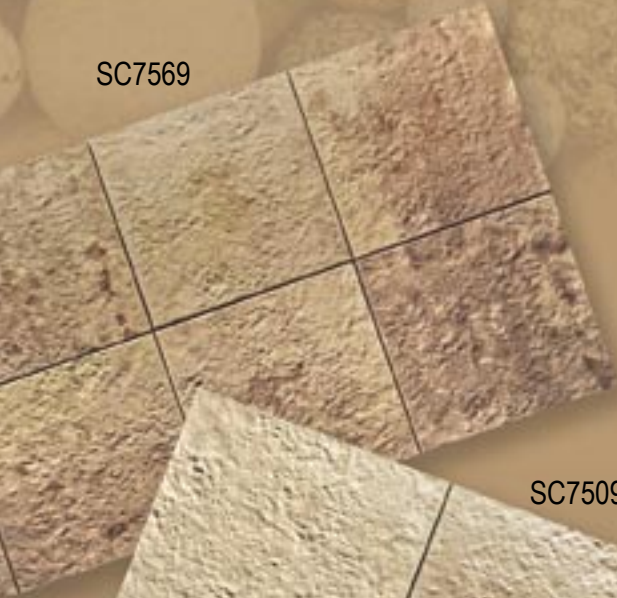

BlueStone

The mottled look of the Stoney Creek Series is subtly apparent in the BlueStone.

Sizes

New sizes for our pavers are constantly being developed. At this time, pavers range in size from 12", 18", 24", 30" and 36". Thickness ranges from 2" to 2 3/4".

SC7569

SC7509

Texas

The Texas Series offers a range of tan and brown tones relative to the southern plains region.

Physical Properties

PROPERTY	VALUE	TEST METHOD
Compressive Strength	=>8,000 PSI Avg.	ASTM C140
Flexural Strength	=>800 PSI	ASTM C293
Water Absorption	<6%	ASTM C140
Freeze Thaw	=<1% loss of dry weight (50 cycles)	ASTM C67
Center Load	1,850 lbs.	WTCL 99

(Based on 2" Thickness)

SC7662

SC7782

Montana

The light creamy yellow of the Montana Series and the heavily mottled tan and black are sure to make a lasting impression.
