Turnstone Thought Starters

Let's play "what if".

Take Kick® systems furniture and consider your options. A value-priced system with a full statement of line. Aesthetics from funky to traditional. 120° planning and other configuration choices. Stackable, load-bearing panels, and multiple panel skin options. Simple reconfiguration in the field. Plus, Kick plays well with other Turnstone® and Steelcase® products.

This is just a start of what Kick can do.

Now it's your turn.

For downloadable files of these thought starters, visit turnstonefurniture.com/starters

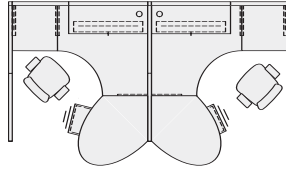

Upmount metal bins offer flexible overhead storage while providing additional privacy.

Mobile pedestals can be repositioned within the workstation to suit personal workstyles.

Peninsula worksurfaces support collaboration within individual workstations.

Glass stackers allow light into workstations while creating aesthetic interest.

Let's B™ seating as shown, list each: **\$ 485 (US)**

(Kick® base fabrics and finishes. Prices may vary depending on specification, code restrictions, etc.)

Kick® 2-pack (4' x 8' workstation)

Sliding doors create high-performance private work spaces in a very small footprint.

Glass stackers offer a translucent option and make smaller spaces feel more open.

Laminate common shelves save valuable footprint space while providing surface for piling.

Tackable acoustical panels provide visual and acoustical privacy for task work.
