

AFFIRM

DRAMATIC

Affirm leads a selection of wood casegoods in which one continuous sheet of select hardwood veneer decorates an entire worksurface, resulting in dramatic cathedrals and grain patterns unique to each piece of furniture. Curved lines dominate the design – modesty panel, crown decor, light rail and overhead back panel. Extra open pedestal in connecting corners of single pedestal desks and credenzas features one grommet in the inside panel for CPU storage applications. Decorative base trim, made of shaped hardwood, protects veneer panels and is field-replaceable. Common grain direction across desks, returns, bridges and credenzas increases aesthetics. Reverse-coped edges create smooth worksurface connections. Balanced-panel, three-ply construction is standard. Choose Rouge Mahogany or Honey Cherry satin finish with catalyzed lacquer topcoat.

Shaped edges feature a reverse-step profile.

Twisted-ribbon, ergonomic drawer pulls are solid metal with nickel finish.

Deskpads or glass with standoffs are recommended for additional protection of genuine wood veneer surfaces.

Extra open pedestal is standard in the connection corner of single pedestal desks and credenzas. Inner panel of pedestal includes grommet for CPU storage applications.
