CAPRI

# C A P R I

DESIGN: KEN REINHARD

Capri chairs present a mature and civilized image. A medley of scale and proportion combined with curves and lines provides a sculptural quality. The one piece upholstered seat and back are suspended in a beautifully crafted framework of wood and metal. Capri is available with a sculpted wood back leg, or with a metal back leg finished to match the metal on Halcon casegoods. Constructed of beech, the chairs are offered in the full range of Halcon wood and Chemcolor finishes, upholstered in COM or Halcon's *Fabric Choice* program.
