RPM Chair

Overview

The *RPM* chair, designed by Carl Magnusson, is a budget-conscious task chair with easy-to-use adjustments. It is manufactured using clean technologies, including VOC-free powder-coat paints and adhesives, integral-color plastic and nylon parts and CFC-free foam cushions. *RPM* has a recycled content greater than 50% percent. It is designed for durability and long life and is covered by a 10-year warranty on seating structural and operational parts. *RPM* is GREENGUARD Indoor Air Quality Certified®. Returnable packaging is used for shipping component parts.

Commercial Interiors

The *RPM* chair can help customers achieve the following Commercial Interiors LEED Credits:

- MR Credit 4.1 and 4.2 - Recycled Content

Intent: Increase demand for building products that incorporate recycled material, reducing impacts resulting from extraction and processing of virgin materials.

***RPM* has a total recycled content of more than 50 percent.**

Qualifies for 2 LEED credit points

- MR Credit 5.1 - Regional Materials

Intent: Increase the demand for building materials and products that are extracted and manufactured within the region.

Help with this point will depend on project location.

Commercial Interiors

- EQ Credit 4.5 - Low-Emitting Materials, Furniture and Furnishings

Intent: Reduce the use of furniture assemblies that may release indoor air contaminants that are odorous or potentially irritating and might be deleterious to installer and occupant health, comfort and well-being.

The *RPM* chair is **GREENGUARD Indoor Air Quality Certified®**.

Qualifies for 1 LEED credit point

New Construction

The *RPM* chair can help customers achieve the following New Construction LEED Credits:

- MR Credit 4.1 and 4.2 - Recycled Content

Intent: Increase demand for building products that incorporate recycled material, reducing impacts resulting from extraction and processing of virgin materials.

***RPM* has a total recycled content of more than 50 percent.**

Qualifies for 2 LEED credit points

- MR Credit 5.1 - Regional Materials

Intent: Increase the demand for building materials and products that are extracted and manufactured within the region.

Help with this point will depend on project location.

Existing Building

The *RPM* chair can help customers achieve the following Existing Building LEED Credits:

- MR Credit 2.1 – 2.5 - Optimize Use of Alternative Materials

Intent: Reduce the environmental impacts of the materials acquired for use in the operations and maintenance of buildings and in the upgrading of building services.

***RPM* contains at least 10% post-consumer or 20% post-industrial material.**

Qualifies for 1 LEED credit point

- MR Credit 4.0 - Sustainable Cleaning Products and Materials

Intent: Avoid exposure of building occupants and maintenance personnel to potentially hazardous chemical, biological and particle contaminants, which adversely impact air quality, health, building finishes and systems, and the environment.

RPM* chairs upholstered in Knoll textiles and leathers with cleaning codes W or WS are designed to be cleaned with low environmental impact cleaning fluids.

Qualifies for 1 LEED credit point

*COM may not qualify.
