

## *Pantheon throw*

Throw is part of the Moooi Weer collection. It is a savior of old couches and a possibility to create new and warm visual quality in your house within the range of small budgets. Throws are usually a “no-go” in the design industry and an exciting pleasure therefore to present. If you don’t have an old couch, throw can be a perfect tablecloth for your next dinner with friends. Lets inspire the shops, our clients and their friends with simple fun.
