

MOROSO

Take Off Low/Take Off High

Alfredo Häberli
2005

Description

Armchairs in two heights on sled base or 5-star swivel base. Upholstery is cold-molded polyurethane foam over integral steel frame. Sled base is stainless steel or steel with polished chrome finish. Five-star base is aluminum with twin-wheel casters. Take Off Low is offered with either black self-skin polyurethane, or fabric or leather upholstery. Take Off High is available only with fabric or leather upholstery.

An organically-shaped one-piece shell conforms comfortably to the human body: all shapes, all sizes. From the soft pitch of the backrest to the gentle waterfall of the seat front, Take Off Low and High offers versions for home, office and studio, conference rooms and dining rooms, living rooms and reception areas. It is also a companion to Take a Line for a Walk lounge chair.
