

THE LOGIC *meet* SERIES

H B F

01

LOGIC *meet* video conferencing tables expand the technical capabilities of today's conference areas. This tapered 12' table is equipped with three power/data units to provide easily accessible connections. A smaller 9' video conferencing table is also a part of the LOGIC *meet* Series.

The LOGIC *meet* Series

Designed to fulfill a multitude of conferencing requirements from informal meetings to the boardroom. Tables are available in a variety of veneers, solid acrylics and laminates; and can also be specified with sub-tops to support customer provided top materials such as stone or glass. In addition to the wide range of shapes and standard sizes, custom sizes are also offered. Power connections are always at hand and all tables can be easily wired for any current or future data need. HBF's LOGIC *meet* Series offers an array of solutions for any aesthetic or technical challenge.

04 | LOGIC*meet* conference tables are available in three wood species: maple, cherry and HBF Ligno-Grain, a reconstituted wood veneer. This 16' arched boat table, in Ligno-Grain veneer, is finished in HBF O2 Medium Walnut and complemented by swivel tilt chairs from the MV9 Series. Note the power/data trough spanning the entire length of the table to allow complete access for power and data wiring.

- 02 | Power/data connections are accessible through a flush mounted, metal flip-up door. This power/data unit provides four electrical outlets and up to six data connections.

- 03 | LOGIC*meet* conference bases incorporate internal wire management channels. The removable, slim base cover on the right allows for the passage of numerous wires. The larger, removable, perforated base cover is an option for concealing a floor monument. LOGIC*meet* metal bases are standard in HBF Satin Pewter powder coat finish.

- 05 | This rectangular, maple 10' LOGIC *meet* table is standard with two power/data access units. Tables are also available without power and data connections. In addition to the various wood veneers, solid acrylic and laminate tops, LOGIC *meet* conference tables may be ordered with a wood sub-top to enable the customer to supply glass, stone or other optional top materials.

06 | Conferencing credenza wood cases for the LOGIC*meet* Series are available in maple, cherry or HBF Ligno-Grain veneer. An optional suspended buffet shelf may also be specified.

07 | LOGIC*meet* conference credenzas, offered in 6' and 8' lengths, are available with wood hinged doors or frosted acrylic sliding doors. Optional buffet shelves are offered in wood, glass or solid acrylic.

09 | This round LOGIC *meet* conference table is shown in one of the two standard acrylic solid surface colors, HBF Alabaster White.

10 | The round power/data unit for the LOGIC *meet* Series provides two electrical outlets and two data connections.

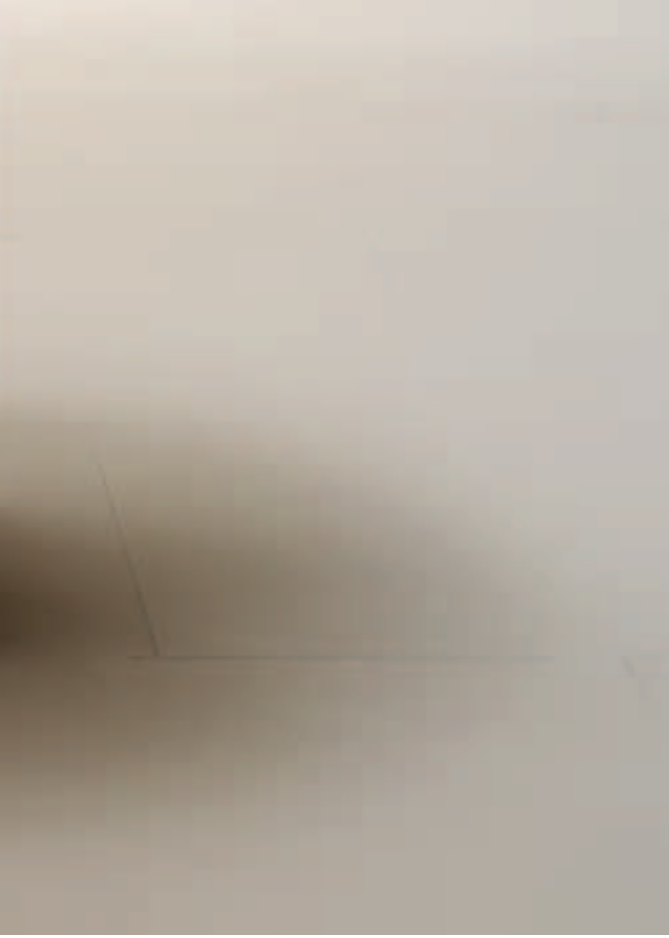

11 | With a round power/data unit, this acrylic solid surface table top is shown in standard color, HBF Ebony Skies.

- 12 | This rectangular, laminate LOGIC*meet* table is standard with two power/data access units. Removable base panels and a power channel that connects the metal bases allow full access for power and data wiring and connection requirements.

13 | LOGI *Connect* tables are also available with four individual panel legs. These legs incorporate a vertical recess with an integrated metal clip for wire management.

15 | Mobile carts are offered with or without doors and with wood, laminate or acrylic tops.

16 | Wall mounted presentation cabinets feature sliding access doors, white marker boards and projection screens.

- 17 | LOGIC_{meet} credenzas are available with hinged wood doors or sliding acrylic doors.
Wood, glass or solid acrylic buffet shelves are optional.

18 | An open mobile serving cart is available in any of the three standard wood veneers. Additionally the top may also be specified in an acrylic solid surface material.

19 | Audio/visual mobile carts may be specified as an open front or with lockable wood doors; both are standard with a metal perforated back. All LOGIC*meet* Series carts contain one adjustable shelf and are supported by a metal X-base with casters.

20 | The LOGIC*meet* conference easel can accommodate standard paper flip pads in addition to the included white board. Two metal trays are provided for marker and eraser storage.

21 | LOGIC_{meet} conference easels provide a two-sided white board which is easily interchangeable from this vertical position to a horizontal placement.
