

THE ASHTON SERIES & THE MERCER SERIES

H B F

The Ashton Series & The Mercer Series

HBF has created the distinctive Mercer and Ashton casegood series; solid, thoughtful proportions and attentive detailing offer the user an elegant and timeless aesthetic solution. Both series are designed and engineered to address the reality of today's furniture budgets yet offer the hand-matched veneers, beautiful finishes and unique functionality that is expected from HBF.

01 The Mercer Series features a proportionally impressive two inch top on all work surfaces. Desks are offered in rectangular and bow front forms and also stationary and mobile table desks.

02 | An extensive offering of components in multiple sizes allows the creation of many office configurations. Mercer credenzas, returns and bridges feature removable access panels and recessed pedestals to allow complete wall access for flexible wire management options.

03 | Mercer desk extensions are offered in numerous, unique forms. Overheads are available in single and double high heights.

04 Mercer paper management towers are offered in satin silver or black powder coat finishes.

05 The aluminum Nash pull is mounted asymmetrically on all 18" wide pedestals.

06 Numerous open storage and paper management options allow the creation of unique work wall configurations. Crown molding is also offered.

09 | Ashton desk extensions are available in several linear and curved forms. To allow for multiple wire management situations, credenzas, bridges and returns have removable access panels and pedestals recessed 4" from the wall.

10 | Ashton paper management towers have eased edges and are available in satin silver and black powder coat finishes.

11 | The aluminum Madison pull was created to reference Ashton's eased edge detail.

12 | Architecturally interesting work walls can be created using the broad offering of components with open shelving for books, binders or display.

13 The upper half of all Mercer and Ashton pedestals can be specified with either horizontal or vertical storage options for paper, binders or books.

14 Ashton credenzas are available in six inch width increments and virtually unlimited pedestal configurations. Mobile file pedestals are also offered.

15 Stationary and mobile table desks are produced in multiple top shape options.

16 The Ashton edge detail is manufactured in solid cherry or maple woods.

17 Overheads are available in single and double high heights. Optional crown molding offers additional detailing to the series.
