

8517 - 24 Hr. Seating

FEATURES:

- *8517 - 24 Hr. chair is designed to accommodate intensive use and multi-shift users.*
- *The synchro-tilt mechanism comes with an adjustable seat slider and height and width adjustable arms that allow the seating area to be customized to fit the user.*
- *The molded memory foam seat distributes body weight evenly for better circulation. Memory foam returns to its original shape and then adjusts for the next user.*
- *The back of the seat is made of molded foam and is height adjustable for proper lumbar support. The pneumatic height adjustment allows each user to sit comfortably upright. Comes with standard black plastic base and height and width adjustable urethane "T" arms.*
- **Options available:**
 - Armless*
 - Polished aluminum base*
 - Hard casters or glides for carpeted surfaces*
 - Soft casters or glides for hard floor surfaces*
 - Shipped fully assembled or knocked down*
- **Dimensions**
 - Height 40"*
 - Width 28"*
 - Depth 25"*
- **COM Material Requirements**
 - 1 ½ yards @54" wide*
