

Arlington

Arlington

Arlington is constructed of heavy plywood to be strong and durable. The cell foam seat and back provide comfort. The mechanism contains variable tilt lock, pneumatic height adjustment and tension control. Knee tilters are available in mid and high back styles. The operator stool with foot ring has a 10" cylinder and pneumatic height adjustment. The mid back guest chairs are available with fixed "T" arms with black cap, fully upholstered back, and a cantilever black base frame with glides.

The following arm options are available:

- N1 - Armless
 - G1 - Fixed "T" arm with black cap
 - T2 - Height adjustable urethane "T" arm with black cap
 - T6 - Height and width adjustable urethane "T" arm with black cap
- Note: Guest Chair is available in N1 armless or G1 fixed arm only

Base finishes available:

- SB - Standard base
 - PA - Polished aluminum base
- Note: Guest chair in black frame only

Adjusts individually at the touch of a button. Foamed polyurethane armrests.

T6 Height and width adjustable urethane "T" arm with black cap

Adjusts individually at the touch of a button independently of the synchronized body-size adjustment. Foamed polyurethane armrests are comfortable and pleasing to the touch.

PA Polished aluminum base

This option enhances the beauty of Arlingtons Knee-tilter and Operator stool for a more professional look.

Arlington offers management and task seating of exceptional quality and comfort for the most stringent requirements. Available in 4 models including knee-tilter, operator stool and guest chair. The sectional

design of the fully integrated seat and back is aesthetically defined in sections through sculptured lines stitched into the seat and back. This design allows Arlington to be upholstered in any number of

ways with standard Global Contract fabrics. Mix and match various fabric combinations within the seat sections and the back.
