

GOOD NIGHT

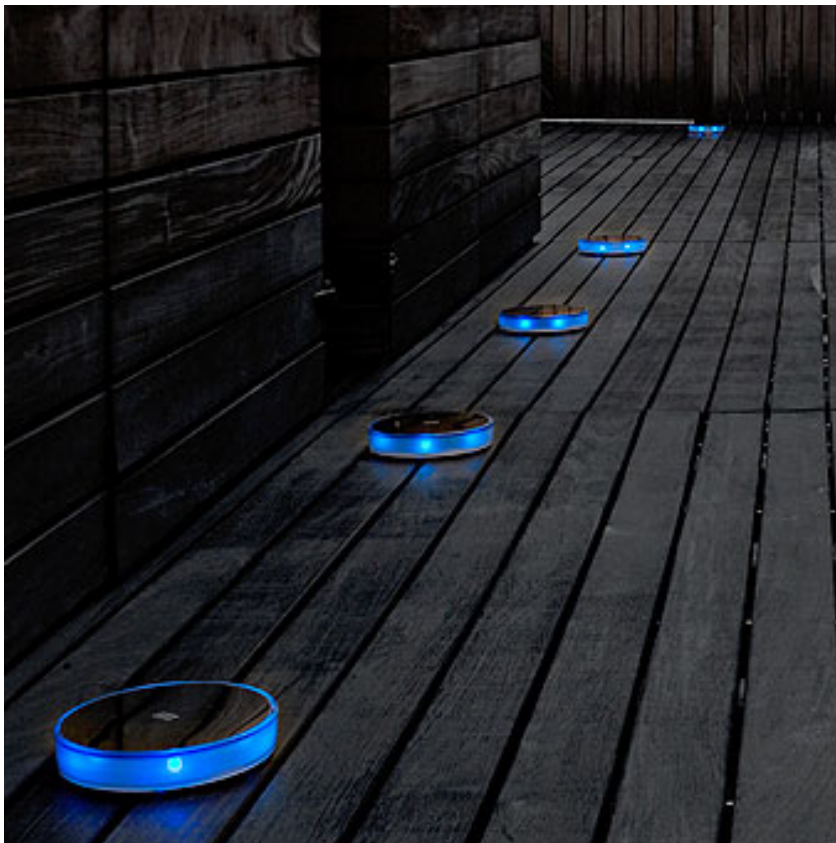

Mounting	: Floor
Lamps description	: 2 x 12W Special base LED Blue or Amber
Environment	: Indoor
Finish	: Matt
Technical description	: Floor lamp providing soft light - close to the floor. Body is matt, transparent, injection-molded polycarbonate in compressed laminated cellulose; bottom cover and battery compartment cover in injection-molded, self-extinguishing PA6 (self-extinguishing polyamide) with gray finish. Colored light is emitted in all directions (360°) close to the floor through blue or amber LEDs (the color is selected through a switch located on the bottom cover). Operating time of 12 hours (an entire night) is ensured by three type AA batteries or three rechargeable storage batteries that can be recharged using the kit included in the package.

ELECTRICAL

Transformer availability	: Included
Emergency	: Without
Switching	: The lamp is turned ON/OFF by pressing the lamp body
Voltage (V)	: 100/240

PHYSICAL

Supply	: Power cord with transformer on plug
Construction material	: Plastic
Weight (kg)	: 0,6

Good night
