edge profiles

***Urethane Edges**
Ergo edge on user side can be complimented with either a PVC or Urethane edge on the non user sides.

base options

Convenient options, including casters, cantilever and height adjustability give Mega Series tables the utility needed to excel in modern classroom settings. Bases are available in powder coat and polished chrome finishes.

flip & nesting

Space-saving flip top mechanisms offer intelligent storage solutions for active meeting and training environments.

folding

Durable folding mechanisms allow for painless set up, break down and storage of training room tables, including those with modesty panels. Risers and Anti-Sag Bars grant folding capabilities to large and small tables alike.

modesty panels

* Laminate available with Self, PVC, Sydney PVC and Wood Edges

height adjustable mechanisms

Hand Crank, Electric, and Pin Adjustable options provide greater flexibility. Tables may be adjusted from standard heights to wheel chair accessible heights to meet the needs of multiple users.

Electric Control

- Table Down
