

light wraps™ Specification Sheet

Benefits:

Improve the appearance of your building

Light Wraps™ decorative wall pack covers are designed to improve the appearance of your property without the expense of purchasing high-end architectural lighting fixtures.

Simple assembly and installation

Easy to follow instructions, mounting template and no electrical wiring means worry-free installation without expensive electrician fees.

“Dark Sky” models available

Bring your existing wall packs into compliance with rapidly emerging light pollution ordinances. Benefit the environment and save money!

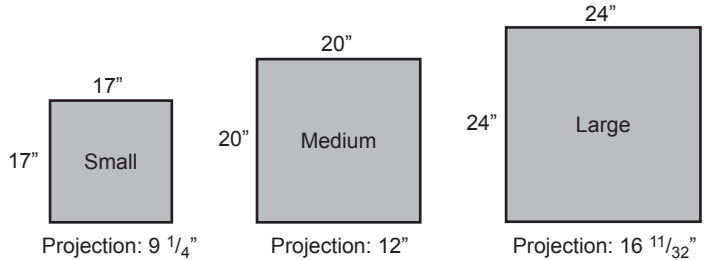

Custom styles and colors

Incorporate your company logo, school colors, address, etc., by specifying custom sizes, shapes, colors and laser-cut designs.

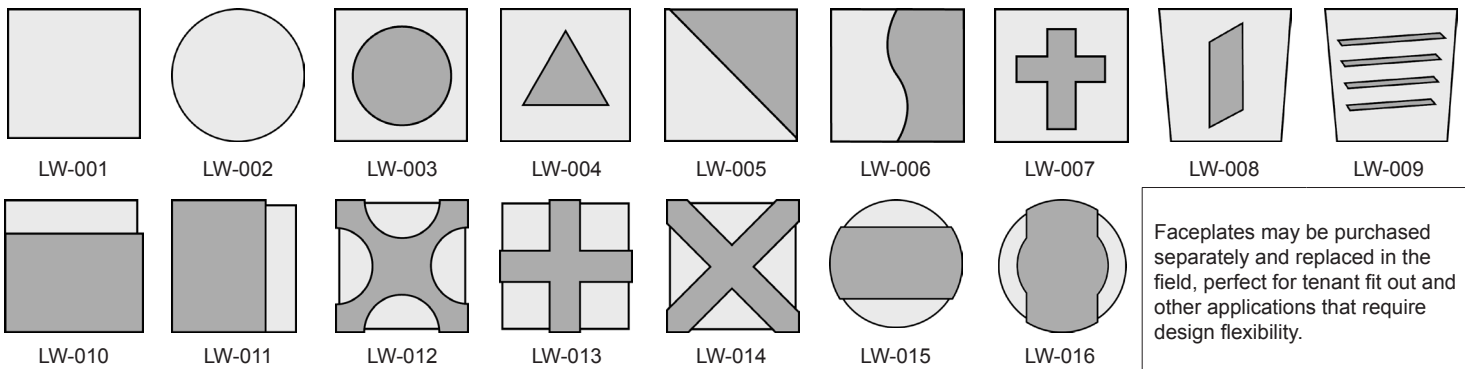

Size Guide:

Light Wraps™ are available in three sizes to accommodate most standard wall pack shapes and sizes, up to 18 1/2" wide by 19" tall by 15 5/8" projection.

Approximate Faceplate Dimensions (slight variation with each design)

Styles:

Faceplates may be purchased separately and replaced in the field, perfect for tenant fit out and other applications that require design flexibility.

Colors (Background/Accent):

Dark Sky Kit:

The optional Dark Sky kit provides full top and side light cut-off from your wall pack to ensure compliance with Dark Sky and light pollution ordinances.
