soft

textile softwall

textile softwall expands from the thickness of a book (less than 50mm(2")) to form a translucent white or opaque black freestanding wall. It is made from a highly durable polyethylene non-woven textile which is tear, UV and water-resistant and 100% recyclable. All textile softwalls of custom and standard heights can be expanded and used in any curved freestanding formation between approximately 2000mm(6.5') and 5000mm(16.5') in length. textile softwall can be readily recompressed into a compact sheaf, folded in half and stored away like a blanket.

product		dimensions tall x wide	colour	product code
textile softwall		1830mm(6') x 305mm(12") <i>ships in box 910mm(36") x 380mm(15") x 150mm(6")</i> <i>weight: 12.5kg(27.5 lbs)</i>	white black	SWT-S6W SWT-S6B

soft

kraft paper softblocks + kraft paper softwall

kraft paper softblocks are a modular system of building blocks with embedded magnetic connectors, available in the same opaque colours of black or natural unbleached brown as kraft paper softwalls and kraft paper softseating. The stiff heavyweight, fire retardant paper used is made from 50% recycled content and is 100% recyclable. Each kraft paper softblock can be expanded into any curved freestanding formation between approximately 2000mm(6.5') and 5000mm(16.5') in length. If you use the magnetic connectors of kraft paper softblocks to anchor one or both ends of each softblock to other softblocks or any fixed steel surface you can stretch the usable length up to approximately 6000mm(19.5'). Functional load bearing surfaces can also be formed as niches within a wall or along the top of a single softblock. The 1830mm(6') kraft paper softwall is identical to the 1830mm(6') kraft paper softblock, but without magnetic connectors.

product		dimensions tall x wide	colour	product code
kraft paper softblocks 30cm(12") wide		305mm(1') x 305mm(12") <i>ships in box 320mm(12.5") x 320mm(12.5") x 90mm(3.5") weight: 4.4kg(9.8 lbs)</i>	natural brown black	SBKM-1BR-12 SBKM-1B-12

soft

textile softseating		textile softseating is available in the same modular forms and dimensions as paper softseating, but is made from a water-resistant polyethylene-based non-woven textile material. This is a heavier version of the same white textile used in our textile softwalls and textile softblocks. Each of the flexible honeycomb units has magnetic end panels allowing any two or more of the same size to be connected, opening up endless possibilities for shaping long winding benches and seating topographies. The flexible nature and large diameter of the fanning loungers allows them to be leaned on top of one another or against walls to create uniquely contoured shapes with backrests.		
				
product		dimensions tall x diameter	colour	product code
textile fanning stool		230mm(9") x 405mm(16") <i>ships in box 260mm(10.3") x 230mm(9") x 115mm(4.5") weight: 2kg(4.3 lbs)</i>	white	FST-9W-16
		230mm(9") x 610mm(24") <i>ships in box 260mm(10.3") x 330mm(13") x 140mm(5.5") weight: 3.9kg(8.6 lbs)</i>	white	FST-9W-24
		305mm(12") x 405mm(16") <i>ships in box 340mm(13.3") x 230mm(9") x 115mm(4.5") weight: 3.6kg(8 lbs)</i>	white	FST-12W-16
		305mm(12") x 610mm(24") <i>ships in box 340mm(13.3") x 330mm(13") x 140mm(5.5") weight: 5.2kg(11.5 lbs)</i>	white	FST-12W-24

textile fanning lounger		405mm(16") x 1880mm(74") (comes in 3 pieces) <i>ships in 3 boxes 930mm(36.5") x 430mm(17") x 100mm(4") weight: 16.7kg(37 lbs) per piece</i>	white	FLT-16W-74

soft

kraft paper softseating		paper softseating is made entirely from heavy weight fire retardant kraft paper, and all elements utilize a flexible honeycomb structure to fan open into stools, benches and loungers. Each of the sizes and types of softseating can compress like a big book for storage. Paper softseating can be used creatively and interchangeably as seating or as low tables, and the elements can even be stacked and overlaid playfully as building blocks to create unusual seating landscapes.

soft

textile softlight		softlight is a new family of flexible honeycomb lighting pieces made to compliment the shaping of intimate space with the softwalls, softblocks and softseating. The flexible nature of the honeycomb structure allows a single light to take on many variations of the form. In groupings this is particularly interesting because each lamp can have a related yet unique form. The urchin softlight is for indoor use only.		
				
product		dimensions tall x diameter	colour	product code
small textile urchin softlight		265mm(10.5") x 300mm(11.5")	white	SLT-US

extra large textile urchin softlight		760mm(30") x 760mm(30")	white	SLT-UX

float

float		float is a line of glassware designed with simple forms and clean lines to emphasize the expressive colours and charms of the tea, scotch, juice, etc... served within. The suspended bowl of each piece creates a lens of liquid colour, projecting a play of light on the table top. The simple elegant forms belie sophisticated technical innovations and highly skilled work by master glassblowers. The tea lantern has an insulating double wall, allowing it to be a simple cylindrical form. With the candle lit below the tea lantern, the ambient light, together with the colour, fragrance and steam of the tea, transcends the pragmatic to create a space and engaging experience.

felt rocks + love letter

felt rocks + felt bag	<p>felt rocks are tactile, sculptural pieces for your imagination. Each felt rock is unique in shape, having the familiar form of river rocks due to a similar tumbling action in their formation as they are made of 100% pure wool, densely felted and solid all the way through.</p> <p>felt rocks come packed in a 100% wool felt bag. The wool bags are also available on their own.</p>		
product		description quantity + colour 6 rocks in a wool felt bag: mixed natural colours shades of heathered warm grey + white includes one split rock <i>approx. weight: 2.7kg</i> 6 rocks in a wool felt bag: mixed dyed colours 2 green + 4 dark grey includes one split rock <i>approx. weight: 2.7kg</i>	product code FER-N5 FER-C5
felt bag		wool felt bag (no rocks included)	FEB-G1

love letter	<p>love letter is a "letter" of light made with an electroluminescent film, having a surface you can write on. The quality of light is soft, similar to candle light. love letter began after finding the marble cores that are a by product in the making of Arco, the lamp designed by Achille and Pier Giacomo Castiglioni for Flos in 1962. molo's love letter to the Castiglioni brothers uses the actual marble core from Arco, as a tribute to the Castiglionis. In the spirit of play and the contagious influence of another great designer, Ingo Maurer, we have made a variation of love letter, with wool felt rocks as a base and the "letter" perched on a longer steel wire. As you slide the letter along the wire, the personality of the lamp is animated.</p>		
product		description tall 915mm(36") with 2 wool felt rocks for base <i>ships in box 920mm(36") x 200mm(8") x 150mm(6")</i> <i>weight: 1.8kg(4 lbs)</i> 455mm(18") with white marble core base <i>ships in box 310mm(12") x 410mm(16") x 100mm(4")</i> <i>weight: 2.3kg(5 lbs)</i>	product code LLL-F2 LLL-M1
