

Extraordinary seating for everyone.

- The same comfort as expensive chairs.
- The same look of expensive chairs.
- Everything's the same ... except the price.

**WORKING  
FOR  
YOU**

■ **The comfort you need. The style you want.**

**Comfort and a price that's right.**

Allude is that rare product that offers so much yet costs so little. Until now, the comfort of a mesh back coupled with great upper back support was only available on chairs costing *twice as much* as Allude. Today's consumers are well aware of value and quality in task seating. And they expect KI to lead the way. Our customers know exceptional seating is no longer reserved for the privileged few. With Allude, comfort is now the norm – not the exception – for everyone.

Allude's free-floating back gently supports every move that you make.

For that perfect "fit," there is an easy-to-use adjustable lumbar.

Height adjustable arms are standard.

The powder-coated base is protected by hard-wearing plastic scuff protectors.

Allude™ Task Seating

Allude provides a mesh back that conforms to your back. The mesh allows for air ventilation and natural cooling – so important in an eight-hour-a-day task chair. Pair that with a highly cushioned seat, and you have complete comfort with a capital "C."

Simply irresistible.

Allude Task Chairs have a dizzying array of user-friendly features. Everything you need to achieve the perfect fit is built-in. No superfluous features added just for the sake of having them. No overblown costs. Subtle and sleek, Allude is simply satisfying seating at an equally satisfying price.

Allude offers a smoothly reclining back with great support. Add adjustable lumbar and soft arm pads, and you've found a chair that's hard to resist.

Take a closer look.

Available exclusively in black, Allude effortlessly adapts to your décor. The gentle curve of the mesh back complements any interior. Sophisticated. Contemporary. Stylish. Allude is a unique chair that visually conveys comfort ... and makes good on its promise.

One well-adjusted chair.

KI believes a chair *must* fit to you ... not the other way around. And Allude has all of the adjustments you'll ever need. Seat height. Lumbar. Arm height. Back-lock. It's all at your fingertips.
