

Multi-functional sleepers.

- Convenient storage
- Multiple configurations
- Design continuity

WORKING
FOR
YOU

■ Sleepers perfect for any healthcare environment.

Optional casters allow you to move the chair across the room or across the hall. Front wheels are fixed, while the locking rear wheels rotate 360 degrees. Casters not available on loveseat sleepers.

Sleep surface side only. This space saving design adds storage and convenience. Lift the seat to store bedding, an overnight bag or personal items.

Easy to read instructions guide you through the process. The attached pull strap lets the patient's guest easily convert the sleeper to a loveseat or a lounge chair.

Briar® Sleepers

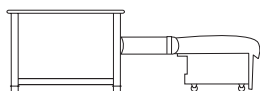

A welded structural steel inner frame that provides strength and stability, Briar Sleepers are a smart choice for sleepover seating. The solid hardwood arms add warmth. For design continuity, Briar Sleepers are part of the Briar collection.

Briar Sleepers also offer field replaceable arm panels, seat and back cushions, as well as convenient under-seat storage. The pull handle is standard in black, but also available in sand, warm grey or desert beige.

Whether you choose the lounge or loveseat design, optional moisture barriers are available to help protect the fabric. When using suitable fabric, Briar Sleepers meet TB133.

Easy to use, the Briar Sleepers have numerous configurations to fit any foot print. With so many options for mobility, storage and arrangement, the Briar Sleepers are ideal for any healthcare environment.
