

CrossRoads Furniture. Where people and knowledge meet!

- Inviting transitional design.
- Old-world craftsmanship.
- Cutting-edge power/data.

CrossRoads Library Furniture

There's one place...

To surf the net.

To soar with the classics.

To search for knowledge.

To expand the mind and the soul.

To gather with friends
or meet new ones.

It's today's library. Bring it all together
with CrossRoads library furniture.

CrossRoads Library Furniture. Where
people and knowledge meet!

■ Integrating aesthetics, technology and craftsmanship.

Circulation desk

Check it out. Create command central with transaction desks, work desks, cupboards, book-return modules, book trucks, and more. You design it, we'll build it.

Study tables

Lay it on the table. Solid wood construction with high-pressure laminate top insert for maximum durability. 4-leg (shown) or panel-leg styles. Available with wire access grommets or KI's PowerUp® modules. Three heights (27", 29", and 32").

Chairs

Take a seat. (Any seat.) KI offers an abundance of seating options. From the solid wood CrossRoads chair to other upholstered KI lines. All styles work well with transitional CrossRoads furniture.

Study carrels

Give it some thought. Create the perfect study area with single, or double-faced carrels. Available in 36" or 48" widths and 27", 29" or 32" heights. Use adder units to make rows. Provide power/data for fixed computers through standard grommets or accommodate laptops with KI's PowerUp modules.

Stand-up computer station

Look it up. Locate an electronic catalog or an on-line computer on these 36" or 48" wide stations. Single or double-faced with adder units available. For a laptop station add KI's patented exclusive PowerUp power/data module.

Shelves

Keep it neat. A place for every thing and every thing in its place. 8", 10", 12", and 16" depths and 42", 54", 60", 72", 84", and 96" heights. Single or double-faced units with adder units for extending rows. Decorative end panels are integral to the shelving unit. Shelves adjust on $\frac{1}{2}$ " increments on metal tracks fitted in the case sides.

Two unique styles — Select the clean lines of straight table aprons and case-goods base plates. Or take an interesting new direction with radius styled table aprons and casegoods base plates. (Note: base plates on end panels of shelving units are always the straight design).

Exclusive PowerUp modules — KI's patented PowerUp modules snap open to provide ready access to power/data ports. Push back down when not in use.

Knife edge and mitered corners — The stylish, tapered knife-edge design and mitered corners on tables and worksurfaces help CrossRoads furniture complement any decor.

Strongest joinery — Rest easy with the unparalleled durability of CrossRoads furniture. Eastern Kentucky University independently tested KI's mortise and tenon with screw joinery and found it to be 55% stronger than other common methods.

Wherever. However. Better than ever.

For contemporary resource centers. For classic, traditional libraries. Timeless CrossRoads furniture blends into any setting. Transitional wood design. Clean, understated details. It looks good and is always a wise choice.

For study. For research. For storage. For circulation. Versatile CrossRoads furniture handles any demand. Adjustable shelving. Generous study tables. Private, side-by-side and back-to-back carrels. Discrete power/data access. Three accommodating heights (child, adult, ADA). It does it all, however you use it.

For now. For the future. Durable CrossRoads furniture withstands the test of time. KI's exclusive UV finish. Mortise and tenon with screw joinery. A leading 10-year warranty. The facts add up. Victor Hugo once said, "A library implies an act of faith". Not with CrossRoads furniture. It's made to pass the test of time.

Best finish protection

To provide maximum durability, color retention and resistance to fading, KI uses an exclusive UV finish to protect all furniture surfaces.

Comparison of performance characteristics of various finish types. (5=excellent 4=good 3=fair 2=poor 1=fail)

Protection from:	KI's UV finish	Finishes used by other manufacturers			
		Varnish	Pre-Catalyzed Lacquer	Water-Based	Non-Catalyzed Lacquer
Chemicals	5	5	3	4	3
Abrasion	5	4	4	3	3
Sun-Yellowing	5	4	4	2	3
Water	5	4	3	3	3
Carbonated Liquids	5	4	4	4	3

**You make the rules.
We make the rest.®**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what the market needs. And we make it. The same applies to our service, distribution...everything we do. KI solutions work, because we're working for you.
