

**You make the rules.  
We make the rest.®**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what you need. And, we make it. The same applies to our service, distribution channels... everything we do. It's all built around knowing what you want and giving you the choice. KI solutions work, because we're working for you.

Hartnell Community College is located in a large agricultural valley. The design of the new Learning Resource Center embraces and reflects the region's earthy colors.

"We want to achieve a classical design with an academic look, feel and function," says Gary Hughes, Associate Vice President, Educational Technology and Library Services. "It also needs to reflect the advanced technologies of the 21st century."

Classrooms focus on flexibility and changing needs with Hurry Up! tables and Torsion on the Go! chairs. "Tables collapse. Chairs nest. You can reconfigure rooms in minutes, which makes them very adaptable," says Hughes.

Computer rooms feature InTandem tables and height-adjustable Genesis desking. "The wire management works very well," says Hughes. "It hides the infrastructure better than the others we looked at."

Torsion® Task Chairs  
Wireworks® Panel System

#### Project Participants

Client: Hartnell Community College  
FF+E: Ratcliff  
Architect: tBP  
Project Manager: TMI

Cherry Storm finish on CrossRoads furniture lends the library a warm, natural feeling. Customized circular quad carrels are the visual focal point.

“The end result is an inviting environment with an upscale, high-class feel,” says Hughes, “The library really invites you to stay. We’ve noticed an increase in the use of the library and attribute that to comfortable furniture and classic design. Most students find it very inviting.”

Ratcliff Project Principal Steve McCollom adds, “We collaborated with the LRC committee to select products that were both appropriate and beautiful. We especially appreciated the ease of customizing product for specific applications.”

For the office environments, WireWorks panels create private and shared workstations, Engage task chairs provide comfort and adjustability.

"The offices are smart looking and efficient," says Hughes. "They project a strong business image and supply the efficiencies needed."

For Hartnell's resource center, learning rooms and office workspaces, KI furniture provides effective and adaptable solutions.

"The furniture complements the vision quite well," says Hughes.

McCollom sums up the designer's perspective. "We look to work with a manufacturer offering this breadth of product line for public spaces, learning environments and workplaces."
