## Piretti 2000 Series® Collection

The Piretti 2000 Series Collection combines exceptional flex-back comfort with a modest price to provide outstanding value. A complete family of chairs that meets the needs of any office environment, the collection includes executive and managerial chairs, visitor chairs, task chairs and stools.

The beauty of the Piretti 2000 Series Collection lies in its adaptable styling. With clean lines and smooth contours, the collection complements any office environment.

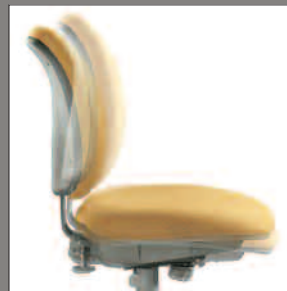

All pedestal chairs in the collection feature an innovative mechanism that instantly adjusts back tension to match the user's weight. The result is a high level of comfort tailored to the specific individual, whatever their size.

**Adjustable back** – The task chair features an optional adjustable-height back for personalized support.

**Back flex** – Back flex relieves stress, prevents fatigue and leads to greater comfort.

**Downward tilt** – The task chair has forward seat tilt. This lessens pressure on the legs during a work-intensive posture, maintaining proper circulation.

**Adjustable arms** – Adjustable height arms are an option.

**You make the rules.  
We make the rest.®**

Of course KI Solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what the market needs. And, we make it. The same applies to our service, distribution...everything we do. KI solutions work, because we're working for you.
