

■ NEW! TOUCH-FRONT FILING SYSTEM

Smart Touch™

Incorporating a multitude of user benefits and backed by the KI lifetime structural integrity warranty, Smart Touch is one of the most functional, durable and adaptable storage systems available. Its flush fronts made possible by a KI-exclusive slide suspension with an integral touch latch mechanism allow designers to create banks of files with a clean, modern aesthetic without compromising functionality and flexibility.

With a simple touch, Smart Touch drawers and cabinets open quickly and smoothly. The flush fronts enhance the design of the filing system while providing storage for practically any media type. In addition, Smart Touch is offered in virtually any color at no extra charge.
