

# Greenboard is out! So now what?

**DensArmor Plus®**  
Paperless Interior Drywall

**Greenboard**

- |   |   |
|---|---|
| • Installs and fastens like regular drywall   | • Installs and fastens like regular wallboard                 |
| • Glass mat facings provide added moisture resistance   | • Face paper provides less moisture resistance                |
| • 6-month weather exposure limited warranty against decay, delamination and deterioration   | • No weather exposure warranty offered                        |
| • Patented glass mat design allows DensArmor Plus to exhibit a higher level of resistance to mold growth than traditional paper-faced products in ASTM D 3273 testing | • Face paper can decay, delaminate, deteriorate and grow mold |
| • Moisture resistant core   |   |

## DensArmor Plus® is the Ideal Replacement for Greenboard

Neither product is recommended for use in areas with continuous high moisture exposure. DensArmor Plus is not mold-proof and despite its mold-resistant characteristics, is subject to environmental conditions which may impact its resistance to mold growth.

# Mold Eats Paper—Stop Feeding Mold™

**DensArmor Plus®**  
Paperless Interior Drywall

**Regular Wallboard**

- |   |   |
|---|---|
| • Installs and fastens like regular drywall   | • Installs and fastens easily with standard drywall tools     |
| • Designed to resist moisture   | • Not designed to resist moisture                             |
| • Glass mat facings provide moisture resistance   | • Face paper and core provide no resistance from moisture     |
| • 6-month weather exposure limited warranty against decay, delamination and deterioration   | • No weather exposure warranty offered                        |
| • Patented glass mat design allows DensArmor Plus to exhibit a higher level of resistance to mold growth than paper-faced products in ASTM D 3273 testing | • Face paper can decay, delaminate, deteriorate and grow mold |
| • Moisture resistant core   |   |

## Eliminate the Paper and Stop Feeding Mold— Use DensArmor Plus® Paperless Drywall

Neither product is recommended for use in areas with continuous high moisture exposure. DensArmor Plus is not mold-proof and despite its mold-resistant characteristics, is subject to environmental conditions which may impact its resistance to mold growth.
