How to Install an Undermount Two-Handle Faucet

ELKAY LIMITED LIFETIME FAUCET WARRANTY ON RESIDENTIAL FAUCETS

Limited Lifetime Functional and Finish Warranty

Elkay warrants to the original consumer purchaser that the Elkay faucet purchased will be free from defects in material and workmanship for as long as the original consumer purchaser owns the faucet. Elkay will, at its option, supply replacement parts (or if no longer available a comparable product) if the faucet fails due to a defect in material or workmanship. This warranty does not apply in the event of product surface damage caused by abuse, misuse or improper care and maintenance. This warranty excludes damage caused by harsh or abrasive cleaners and/or materials. This warranty excludes all industrial, commercial and business use, whose purchasers are hereby extended a limited lifetime on mechanical parts and 5 years on finish. Product replacement does not include transportation cost or labor installation cost. Elkay reserves the right to examine product in question and its installation prior to replacement.

OTHER WARRANTY CONDITIONS ON FAUCETS

Our warranty does not cover product failure or damage caused by abusive treatment, misuse, environmental factors, improper care and cleaning, or damage due to handling or faulty installations. This warranty is extended only to the original consumer purchaser of the product. This warranty does not cover shipping costs, labor costs, or any other charges for such items as installation or replacement of the sink, diagnosis or replacement of any faucet or component part, or any other expense or loss.

All incidental or consequential damages are specifically excluded. No additional warranties, express or implied are given. Any implied warranty, including one of merchantability or fitness for a particular purpose, is limited to the duration of this written warranty.

Some states do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

How to Install Faucet Assembly

1. Remove (2) flanges from cartridge holders and (1) flange nut from spout holder or waterway.

TO INSTALL FAUCET

2. From underneath sink, insert waterway assembly up through sink faucet drillings. From top side, thread flange onto center body. (See Figure 1.) Add washer and sleeve. Insert spout assembly into sleeve and tighten spout nut. Begin to unscrew flange until washer is flattened against bottom of sleeve.
3. Topside, thread flanges to faucet shanks and align faucet.
4. From underneath, tighten (2) faucet locknuts.
5. Install handles (see Figure 2).

FIGURE 1

6. Connect faucet shanks to hot and cold water supply tubes. Thread coupling nut onto faucet shanks and tighten with wrench.
7. **FLUSH WATER LINES** to remove dirt and sediment from water line. Turn on water supply. Unscrew aerator from spout. Turn on **HOT** and **COLD** water (together) for two minutes. Turn off. Replace aerator.

FIGURE 2

1. Insert handle over cartridge stem. Cartridge rotation should be clockwise for hot and counterclockwise for cold, except for Option A. Option A both cartridges are clockwise.

2. Secure handle screw.

3. Insert plug button if applicable.
