

SLAB COFFEE TABLE #1023

The Slab Coffee Table is constructed from a solid piece of sustainably forested wood. Cut from the very center of the tree, each table top features a “live edge,” which retains the unique silhouette of its natural source. Available in all sizes, this piece would make a striking dining table, desk, or coffee table. Please call for slab availability.

Shown in 50" X 36" X 14" H with reclaimed bubinga.
