Abrasion Wear	>100	ASTM C501
Bond Strength	>200 psi	ASTM C482
Break Strength	>400 lbs.	ASTM C648
Coefficient of Friction (Dry)	>0.8	ASTM C1028-89
Coefficient of Friction (Wet)	>0.6	ASTM C1028-89
Water Absorption	<0.10%	ASTM C373

Recommended Usage

Crossville Porcelain Stone products are recommended for interior walls and floors and exterior walls in both residential and commercial applications.

Care and Maintenance

Regular cleaning is the best way to keep your porcelain stone looking new for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth to prevent water spots. No waxes or sealers are needed. More information regarding the care and maintenance of Crossville Porcelain Stone products is available at www.crossville-ceramics.com.

Shade & Texture Index

Quartzite has a shade variation of V4

V4 = Substantial Variation

Random color differences from tile to tile, so that one tile may have totally different colors from those on other tiles. Thus, the final installation will be unique.

Expect wide range in color. Inspection recommended prior to installation.
