

Caesar

Plank

Technological research from Caesar emulates nature by recreating the appearance of wood in compact slabs of hi-tech porcelain. The range consists of single-calibre, squared and rectified tiles in four colours. Three sizes are available in conventional 30x120 cm, 20x120 cm and 14.7x120 cm thicknesses. The Aessential line, with a thickness of 4.8 mm, is available in all colours and a 20x120 cm size.
