

Planes®

HAWORTH®

Beautifully simple and thoughtfully designed, Planes will change the way you look at collaborative spaces. Its clean, linear design allows for more than 80,000 distinct combinations to suit your objectives and aesthetic. And with a multi-faceted family of tables, credenzas, and more, Planes provides unparalleled breadth and flexibility to create exactly the environment you need.

Designed as part of the global Haworth platform, Planes integrates seamlessly with our systems furniture, moveable walls, casegoods, and architectural elements. From its human-scaled dimensions to the materials and finishes, Planes effortlessly brings greater continuity to any space. Created by Haworth Design Studio and Daniel Figueroa of Bad Munder, Germany, Planes answers a global appeal for crisp, clean design.

### **A complete environment.**

At the core of the collection is the Planes table — a sleek, ideally proportioned design with options that appeal to virtually every taste and personality. From a sophisticated, formal air to something more contemporary and athletic, Planes offers the right shapes, scale, and finishes to enhance every space. But Planes extends far beyond tables. Multiple credenza and cart options, a coordinating podium, easels, information boards, and even an integrated horizontal wall rail system contribute to a consistent, expertly outfitted environment.

From a single table to a fully furnished conference or multipurpose room, Planes makes an impeccable, professional impression within any budget.

### Entirely responsive.

Planes is designed as a kit of interchangeable parts. Arrange tables in a V for a speaker at 10 a.m., shift to a conference table over lunch, then create a collaborative atmosphere by early afternoon. The same room and furnishings can change shape in just minutes.

Helpful features make Planes technology and user friendly. One-touch flip-top power units come in a variety of configurations. Cables stay out of sight, integrated into the table base and stretched down the Y-Leg.

In addition, hidden doors conceal cables and storage. The light-weight podium and carts can be pulled where needed. And the Planes easel accommodates writable information boards that also hang on the horizontal wall rail system. The list goes on and on.

### Inspiring functionality.

Planes is the office workhorse. Specifically designed to support the needs of business and technology today, Planes encourages users to:

**Configure.** Create a variety of collaborative environments to support any application.

**Adjust.** Choose from a variety of height-adjustable mechanisms: incremental, crank, torsion, and electric.

**Plug In.** Choose the built-in power and communication options that make sense for the space.

**Flip.** Use, move, or stow the flip-top mobile tables in a snap.

**Store.** Flip up the pneumatic Y-Leg table with its ergonomic finger pull, then nest to save space. Finished on both sides, Planes tables can be stored in plain view.

**Conceal.** Keep wires contained, connected, and out of sight.

**Specify.** Choose the top shape, edge profile, leg style, core, and finish. Planes tables are offered in six-inch increments.

**Intuit.** Enjoy logical, clear functionality that anyone can master in seconds.

**Great alone. Better together.™**

As part of Haworth's universal product platform, Planes integrates readily with Compose® systems, Enclose® moveable walls, and the Patterns™ architectural system, as well as the surrounding architecture. It's one more way Haworth helps you create spaces that perform beautifully today, and adapt easily to changes down the road.

In addition, Planes' far-ranging materials, finishes, and glass offering integrates seamlessly with other Haworth lines. From high-end, formal conference rooms to roll-up-the-sleeves meeting spaces, Planes makes it easy to apply a uniform aesthetic throughout the landscape. Create consistency from walls and systems to tables and beyond.

**Attentively detailed.**

Planes incorporates aesthetic and functional details to enhance design freedom and user convenience. From technology-friendly features such as a cable base that neatly manages wires and one-touch flip-top power units, to a height-adjustable table that hides the crossbar under the table top, providing exceptional knee clearance for users. Planes delivers new ideas to collaborative spaces.

The breadth of the Planes collection allows tremendous flexibility to support any application. Draw on tables, credenzas, media carts, podiums, and more to create a fully adaptable space that conforms to your aesthetic. From sophisticated, formal conference rooms to athletic multi-purpose environments, choose precisely the Planes elements, finishes, and options you need.

## Planes®

Edge Profiles. Planes tables are available in standard Haworth Edge profiles — T-Mold, 3mm Edgeband, Wood Edgeband, Cascade, and Wood Cascade, plus the new Wood Knife edge profile available with the green core.

### Y-Leg

Use with a flip- or non-flip-top table. Choose casters or glides for easy mobility, and switch them if you change your mind later.

	<b>Rectangle</b> 30"D x 60"L to 36"D x 96"L, 36"D x 72"L with Flip		<b>Pebble</b> 30"D x 60"L to 36"D x 96"L, 36"D x 72"L with Flip		<b>Hexagon</b> 30"D x 60"L to 36"D x 96"L, 36"D x 72"L with Flip		<b>1/2 Round</b> 36"D x 72"L
	<b>Polygon</b> 30"D x 60"L to 36"D x 72"L						

### Interior Leg

Placed appropriately for each top shape, the diagonal orientation allows ample leg room.

	<b>Rectangle</b> 30"D x 60"L to 60"D x 270"L		<b>Pebble</b> 30"D x 60"L to 60"D x 270"L		<b>Hexagon</b> 30"D x 60"L to 60"D x 270"L		<b>Square</b> 42"D x 42"L to 72"D x 72"L
	<b>Round</b> 42"Dia. to 72"Dia.		<b>1/2 Round</b> 30"D x 60"L to 36"D x 72"L		<b>Polygon</b> 30"D x 60"L to 36"D x 72"L		

### Perimeter Leg

Available with 2"-thick tabletops to create a desk or elegant conference table.

	<b>Square</b> 42"D x 42"L to 72"D x 72"L		<b>Rectangle</b> 30"D x 60"L to 60"D x 270"L
--	--	--	--

### Height-Adjustable Table

Available in sit-sit and sit-to-stand height ranges to provide best-in-class ergonomic performance.

	<b>Rectangle</b> 23"D x 34"-L to 29"D x 70)L Height ranges up to 22"-H-48"-H		<b>Corner</b> 23"D x 34"-L to 23"D x 46"-L Height ranges up to 22"-H-48"-H
--	--	--	--

### Cable Base

Route and conceal cables through a center base. Side doors allow easy access, and an interior cleat manages wires neatly.

### Stretcher

As part of the Y-Leg, the stretcher accommodates cables, passing wires through a grommet in the base.

## Planes®

Like other Haworth products, Planes is sustainability-focused, with an optional green core made of 100% recycled tree fiber and zero added formaldehyde.

### Credenza

Sizes integrate seamlessly with the dimensions of other Haworth product lines. Clean alignment encourages use in multiples.

### Catering Cart

Lightweight with built-in handles and matching casters for easy mobility. Available in laminate, and designed to integrate with Planes elements and other products.

**Media Cart**  
Stows a projector beneath the laptop tray. A false back door provides access to concealed cables, while a front door hides a storage shelf. Locking doors make it easy to move from room to room.

### Cart Podium

Cabinet, shelf, and a false front provide optimum storage of papers, a computer, and cables.

**Small Cart**  
Designed to hold a phone or remote controls within arm's reach, or magazines in a lounge area. The cabinet, with its adjustable shelf, allows infrequently-used items to be stored out of sight.

### Double and Single Easel

Accommodates information boards that also hang on the horizontal wall rail system. All surfaces are writable.

**Horizontal Wall Rail System**  
Holds the information boards in place for a writable surface or as a projection screen.
