

SHOOKZ

°SHOOKZ

SHOOKZ is ideal for adapting the Arakawa Hanging System to picture frame moulding found in many older homes. The zinc-plated steel moulding hook clips over the wall mounted moulding and allows the same horizontal movement as with our standard rail. Order with a looped cable, slide loop of cable over the smaller end of the SHOOKZ and attach art hook to the bottom of the cable. Attach your art to the art hook on the cable.
