

# CAMELOT COLLECTION

• Shown here with premium hardware

Our Camelot collection combines the romance of a bygone era with a contemporary twist. It features fluid lines and sensuously curved, inset drawer fronts and doors. Round Kwalu feet complete the modern edge to a classic design. Gently rounded edges on all corners and waterfall detailing on all tops make these products ideal for healthcare. The high-impact resistant polymer finish ensures that Camelot casegoods are hard-wearing. The scuff-resistant surface can be repaired within

seconds – no messy sanding and refinishing is required. The Camelot collection is fire-retardant, as we share your concerns for residents' safety. These products do not release VOC's, preserving the internal air quality of your facility. These low-maintenance products carry a 10-year warranty on their construction and finish, guaranteeing that their graceful proportions and cultured styling will be appreciated day in, day out.
