

MANHATTAN COLLECTION

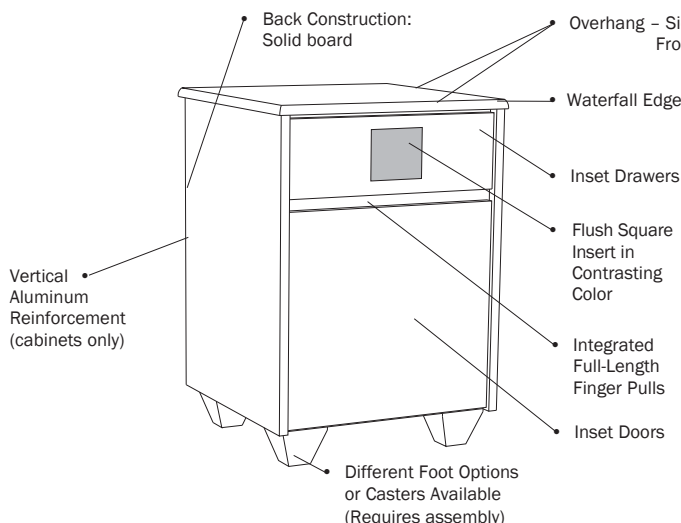

The Manhattan collection is the height of modern elegance. Design elements, such as gently rounded corners, waterfall edging and anti-bacterial finish, make this collection ideal for healthcare environments. The high-impact resistant polymer finish ensures a hard-wearing, scuff-resistant surface that offers in-field repair in seconds. The Manhattan collection is fire-retardant, as we share your concern for patient safety. These products do not release VOC's, preserving the

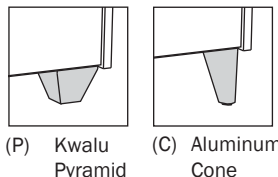

internal air quality of your facility. They carry a 10-year warranty on the construction and finish and can be customized to suit your needs.

Available Options (See pp. 262-264)
