

PHOENIX COLLECTION

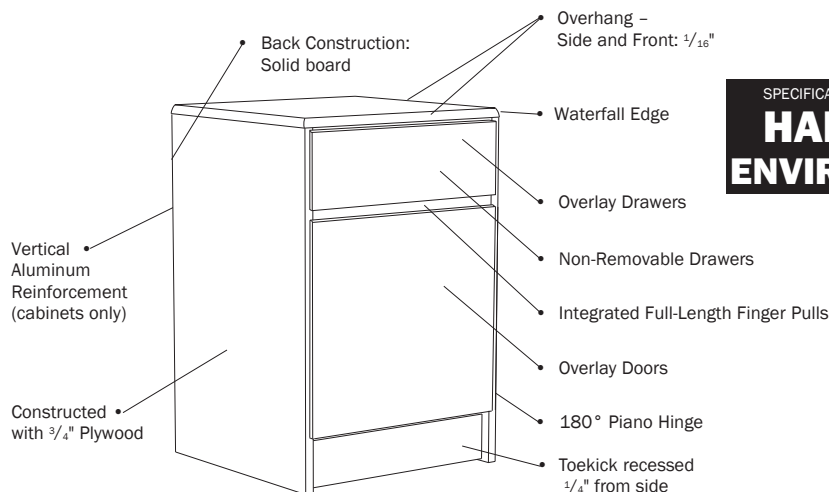

The transitional Phoenix collection is a sophisticated combination of rugged strength and refined elegance. Special features include 0.75" plywood construction for extra strength and rigidity, aluminum-reinforcement, non-removable drawers, tamper-proof screws and integrated finger pulls. Softly rounded edges on all corners and waterfall detailing make these products ideal for facilities with hard-use needs. The high-impact resistant polymer finish ensures a hard-wearing, scuff-resistant surface that can be repaired within seconds – no messy sanding and refinishing.

The Phoenix collection is fire-retardant, as we share your concern for residents' safety. These products do not release VOC's, preserving the internal air quality of your facility. They carry a 10-year warranty on the construction and finish and can be made to order, customized to suit your individual needs.

Available Options (See pp. 262–264)

- Many wood-grained colors
- Contrasting edging options

SPECIFICALLY ENGINEERED FOR
**HARD USE
ENVIRONMENTS**
