

# COTSWOLD COLLECTION

The Cotswold collection of casegoods brings a breath of fresh air to the styling of healthcare furniture. The beadboard inlays lends a gentle country elegance to any room. The gently radiused corners and OG edging make these products ideal for resident rooms. The high-impact resistant polymer finish ensures that Cotswold casegoods are hard-wearing, promising a scuff-resistant surface that can be repaired within seconds – no messy

sanding and refinishing. The Cotswold collection is fire-retardant, as we share your concerns with residents' safety. These products do not release VOC's, preserving the internal air quality of your facility. These low-maintenance products carry a 10-year warranty on the construction and finish, guaranteeing that their unassuming elegance will be appreciated day in, day out.
