US\$ Payment and Shipping*

We will accept payment by Visa, Mastercard, bank wire, or company check drawn on a US bank. Payment must be received in full before any goods will be shipped.

Shipping charges are additional. Standard delivery is by UPS Ground.

Exchange Policy

All sales are final.

Goods which are damaged or defective at the time of receipt can be exchanged for same goods, provided we are notified by e-mail, fax or phone within two business days of receipt of the goods.

This policy does not include goods which are not defective, but rather exhibit minor variations typical of handmade products.

Ordering Information

E-mail orders to sales@molodesign.com, or fax +1 604 685 0342

** Prices and policies are subject to change without notice.*

soft

softwall modular system

softwall + softblock is a modular space shaping system at the core of molot's soft collection. The modular system consists of building blocks and free standing partition walls in a variety of sizes, two materials and three colours, offering a range of properties including translucency and opacity, acoustic absorption, UV, fire and water resistance. Both materials used contain recycled content and are 100% recyclable. all modular softwall + softblock elements are flexible in length, opening to a maximum of 4.5 meters (15') long.

soft

softwall + softblock modular system accessories

steel strips are available to create discrete anchor points, on walls or columns, to connect to magnets concealed in the end panels of each softwall + softblock. peg + disc accessories are available to reinforce joints between horizontal layers of stacked softblocks. The discs are also useful as display surfaces. A glass vase for flowers nests in the honeycomb cells. A steel base is available to anchor softwall + softblock to the floor. And a simple clipping system is available for hanging lightweight materials from the vertical fins of softwall with steel binder clips and magnets.

product		dimensions height x width	material	colour	pricing US\$	product code

soft

paper softwall		paper softwall expands from the thickness of a book, less than 50mm(2"), to form a translucent white or opaque black freestanding wall. paper softwalls can be expanded and used in any curved formation, recompressed into a compact sheaf for storage and then expanded for use again. It is made from a lightweight, fire retardant tissue paper, granting it an airy delicate beauty, yet surprising strength. The paper is made with 15% recycled content and is100% recyclable. all paper softwalls are flexible in length, opening to a maximum of 5 meters (16.5') long.

soft

softseating

softseating is made from heavy weight versions of the same kraft paper and textile materials used in softwall + softblock modular system. Each element of softseating utilizes a flexible honeycomb structure to fan open into a stool, table, bench or lounger and then recompress like a book for storage. Each element has magnetic end panels allowing two or more of the same size to connect, creating long winding benches. The flexible, large diameter fanning loungers may be leaned on one another or against walls to create uniquely contoured shapes with backrests.

product		dimensions height x width	material	colour	pricing US\$	product code

soft

<div><div>softlight</div><div>urchin softlight diffuses and transforms the quality of light from florescent bulbs through a translucent honeycomb structure. The flexible nature of the honeycomb structure allows a single urchin to take on many variations of the form. In groupings this is particularly interesting because each lamp can have a related yet unique form. Adjusting the form of urchin also adjusts the intensity and quality of light, a beautiful, tactile way of shaping the light of an intimate space. The urchin softlight is for indoor use only.</div><div></div></div>

float

float

float is a line of glassware designed with simple forms and clean lines to emphasize the expressive colours and charms of the tea, scotch, juice, etc... served within. The suspended bowl of each piece creates a lens of liquid colour, projecting a play of light on the table top. The simple elegant forms belie sophisticated technical innovations and highly skilled work by master glassblowers. The tea lantern has an insulating double wall, allowing it to be a simple cylindrical form. With the candle lit below the tea lantern, the ambient light, together with the colour, fragrance and steam of the tea, transcends the pragmatic to create a space and engaging experience.

felt rocks + love letter

felt rocks

+ felt bag

felt rocks are tactile, sculptural pieces for your imagination. Each felt rock is unique in shape, having the familiar form of river rocks due to a similar tumbling action in their formation as they are made of 100% pure wool, densely felted and solid all the way through. felt rocks come packed in a 100% wool felt bag. The wool bags are also available on their own.

product		description quantity + colour	pricing US\$	product code
felt rocks + felt bag		6 rocks in a wool felt bag: mixed natural colours shades of heathered warm grey + white includes one split rock <i>ships in box 400 x 400 x 220mm (15.75" x 15.75" x 8.75") 6.0kg (13lbs)</i>	240	FER-NAT
		6 rocks in a wool felt bag: mixed dyed colours 2 green + 4 dark grey includes one split rock <i>ships in box 400 x 400 x 220mm (15.75" x 15.75" x 8.75") 6.0kg (13lbs)</i>	240	FER-COL
felt bag		wool felt bag (no rocks included) <i>ships in box 400 x 400 x 60mm (15.75" x 15.75" x 2.25") 1.5kg (3lbs)</i>	80	FER-BAG

love letter				
<p>love letter is a "letter" of light made with an electroluminescent film, having a surface you can write on. The quality of light is soft, similar to candle light. love letter began after finding the marble cores that are a by product in the making of Arco, the lamp designed by Achille and Pier Giacomo Castiglioni for Flos in 1962. molo's love letter to the Castiglioni brothers uses the actual marble core from Arco, as a tribute to the Castiglioni. In the spirit of play and the contagious influence of another great designer, Ingo Maurer, we have made a variation of love letter, with wool felt rocks as a base and the "letter" perched on a longer steel wire. As you slide the letter along the wire, the personality of the lamp is animated.</p>				
				
product		description tall	pricing US\$	product code
love letter to the Castiglioni brothers		<p>660mm (26") with white marble core base <i>ships in box 930 x 210 x 160mm (36.5" x 8.25" x 6.25") 3.0kg (6.5lbs)</i></p>	450	LOV-MAR
