

# LANCASTER COLLECTION

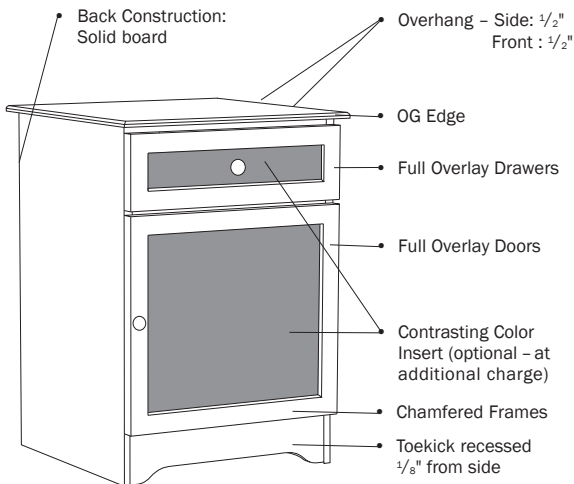

• Bedside Cabinet shown with optional contrasting color inserts, additional upcharge applies.

The Lancaster collection of casegoods offers the final word in subtle shaker design. Unobtrusive refinement and skilled crafting form the perfect balance between function and beauty. These notable products create a graceful environment through rich OG detailing on the tops and recessed insert panels set into chamfered frames on doors and drawers. The designer flush toe kick and gently radiused corners make this product ideally suited to healthcare. The high-impact resistant polymer finish promises a hard-

wearing, scuff-resistant surface that can be repaired in seconds – no messy sanding and refinishing. The Lancaster collection is fire-retardant, as we share your concern for resident's safety. These products do not release VOC's, preserving the internal air quality of your facility. These low-maintenance products carry a 10-year warranty on construction and finish, guaranteeing that their modest elegance will be appreciated day in, day out.

### Available Options (See pp. 262-264)
