

# ASPEN COLLECTION

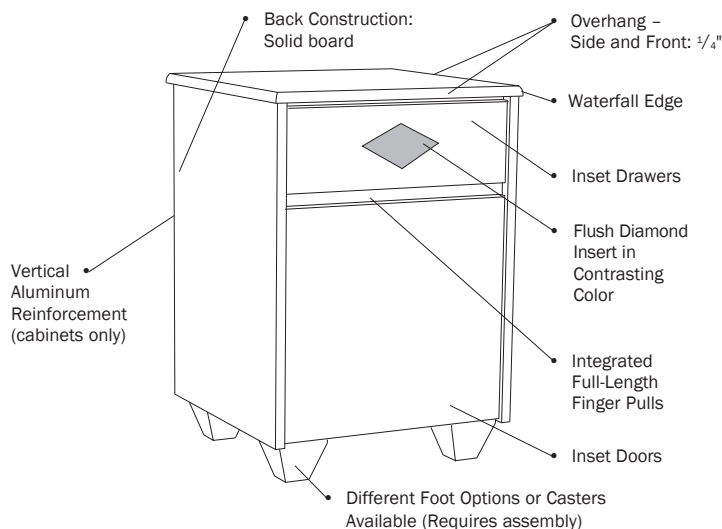

The Aspen collection is the height of sophisticated functionality. The gently rounded corners, waterfall edging and anti-bacterial finish makes this collection ideal for healthcare environments. The high-impact resistant polymer finish ensures that Aspen casegoods are hard-wearing, with scuff-resistant surfaces that can be repaired within seconds – no messy sanding and refinishing. The Aspen collection is fire-retardant, as we share your concerns with patient safety. These products do not release VOC's, preserving the

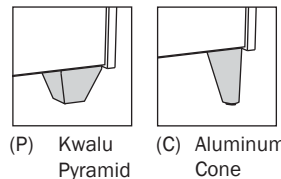

internal air quality of your facility. They carry a 10-year warranty on the construction and finish, and can be customized to suit your needs.
