

Clarity Matrix by Planar

Modular video wall displays
for designers and architects

PLANAR
TM

paint digital walls

Clarity® Matrix™ video walls are a **modular** solution for bringing in digital and video elements into your creative space design.

Create a video wall with any number or orientation or modular tiles ranging from 46" or 55". Scale the size of the wall to make an impact in hospitality or sports venues.

on a video canvas

Limited only by the imagination, Clarity Matrix can be used in many flexible and innovative **configurations** and includes special features for public venues.

The Clarity Matrix is the world's only ADA-compliant video wall product for public venue installations. In portrait or landscape mode and in interesting collage installations, showcase your creativity in retail or corporate spaces.

get digitally enhanced

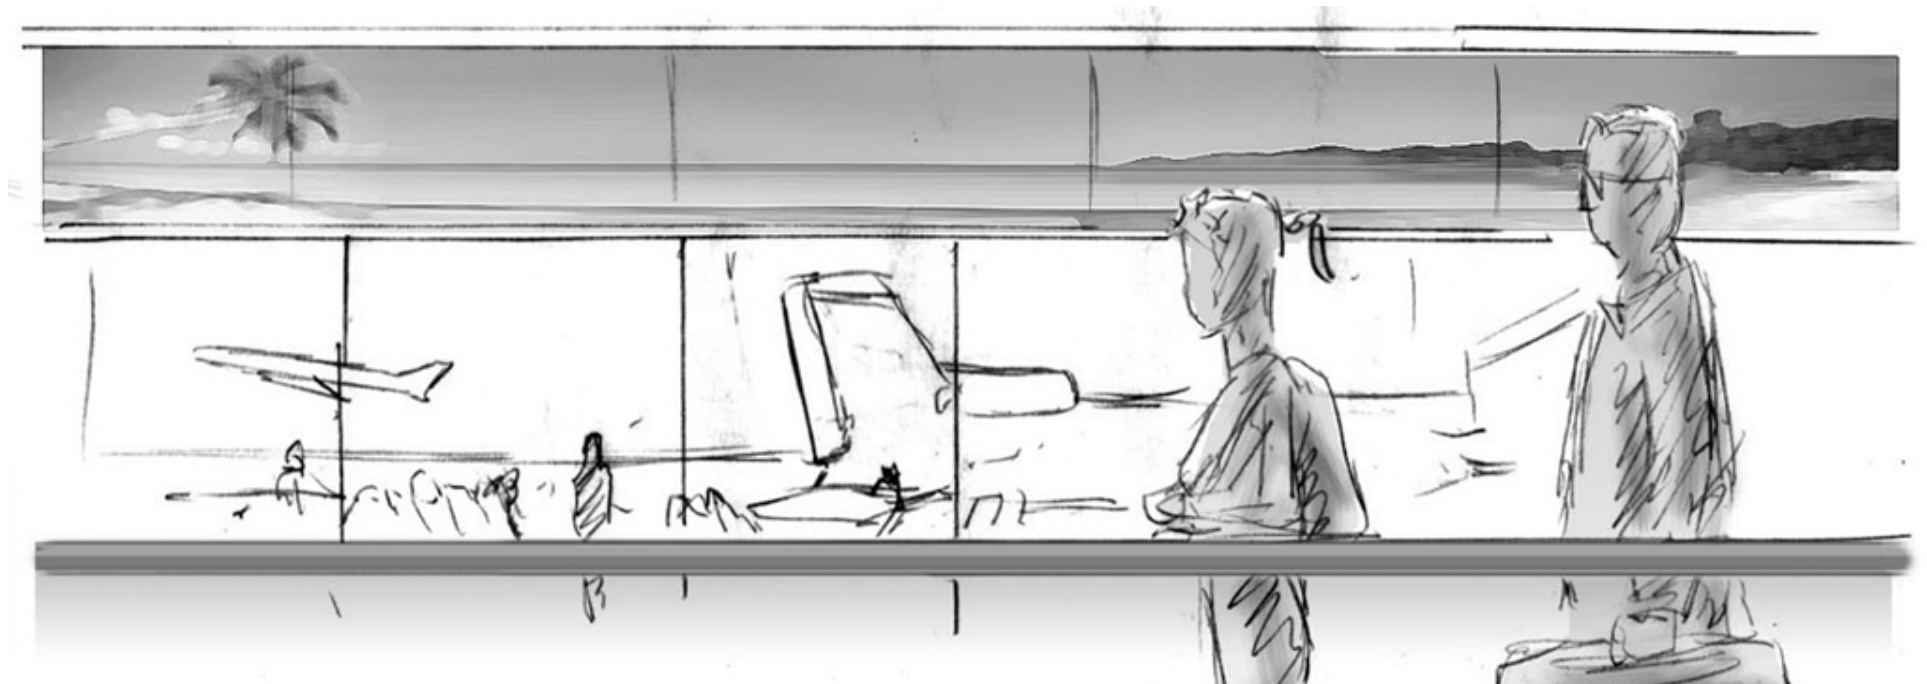

Creating compelling spaces that **excite** the senses and **evolve** with the venue has never been easier

Create a digital backdrop in your design. Changing the look and colorway of the wall is as easy as content selection. Optional ERO™ treatment preserves contrast in bright environments, while enhancing wall durability.

digital canvas

The Clarity Matrix video wall. Your imagination. A million possibilities.
