## Stepping Stone Credenza

This two-sided credenza is commanding enough to be the center of attention at your next party, yet holds its own as a functional room divider for daily use. Inset bamboo doors and marble surface have the tactile appeal of rounded stepping stones, and contrast with the smoothly lacquered structure.

Walk along the path of playful exploration of volume and surface, shape and form with our **Stepping Stones** collection. Functional cutouts emulate the forms of stepping stones and lead you to better organization. The credenza, bench, and chair in this group each provide a colorful way to incorporate storage into functional pieces.

**Standard Size** 84L x 24D x 24H; also standard 60L

**Materials** Bamboo plywood, painted MDF, and recycled or remnant marble

**Options** Custom finishes, colors and sizes available; available with and without open storage below and with and without single and double sided access; coordinates with our Stepping Wood Chair and Stepping Stone Bench

**Order Info** Contact [info@thinkfabricate.com](mailto:info@thinkfabricate.com) for pricing, options, lead time
