

Motio is a seating collection developed in harmony with Moveo tables and intended specifically for meeting, training and conferencing applications. A mini torsion bar provides up to 10 degrees of instant tilt to ensure a comfortable 'initial sit'. Cantilever, 4 leg and swivel base options can all stack.

Die-cast aluminium, injection moulded plastics, 'soft touch' paint finishes; modern materials, modern processes, attractive, simple and slender, and good value, ... and a winner of a Best of Neocon award!

TESTING AND WARRANTY

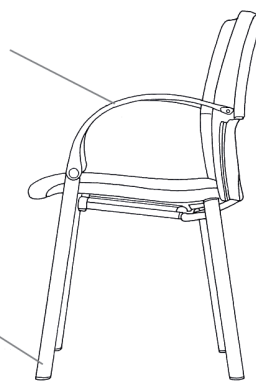

Motio is tested to ISO/DIS 8019 1986 level 4 and is appropriate for 'general contract use', and carries the HOWE 5 year warranty.
