

MOTIO

PRODUCT DESCRIPTION

IN MEETING MODE

Motio is designed as a compatible companion to the Moveo table line as well as other table programmes - setting the agenda for how people work, learn and communicate. The seat and back are equipped with an innovative mini synchro-mechanism to deliver a high degree of comfort. Each space-saving model is stackable, even with a five-star frame. See it as a chair designed for easy handling that is as flexible as your own corporate organisation.

ENVIRONMENTAL AMBITIONS AND HEALTHY DECISIONS

Taking a genuine interest in our surroundings is far more than just a noble idea. It is deeply ingrained in HOWE's strategic thinking. Our long-lasting, space-optimising and multi-usage furniture solutions means fewer resources needed; and thus fewer effects on the environment. Thus, our strategic thinking also contributes to the overall LEED-credit.

We have summarised this mind-set in the concept 'GREENTHINKING' which constantly reminds us to act responsibly vis-à-vis our surroundings, be it our business partners or the natural world.

FEATURES

SUPPLIERS

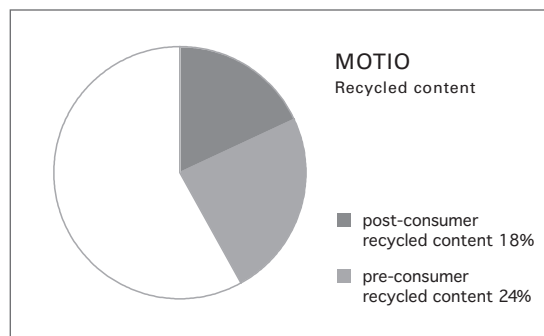

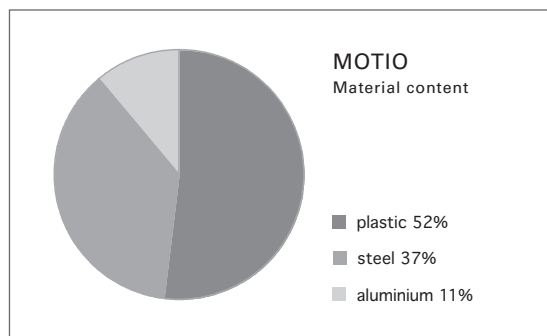

HOWE works closely together with our suppliers to continuously reduce our products' impact on the environment. HOWE is thus setting high environmental demands for both HOWE and our suppliers to comply with.

VOC

Motio metal components have a finish of polish, chrome, or powder coating - All emitting no Volatile Organic Compounds (VOCs).

ALUMINIUM AND STEEL PARTS

All Motio aluminium parts are produced from 90% recycled material and are 100% recyclable. Using recycled aluminium requires only 5% of the energy it would require to produce the parts from new aluminium. All Motio steel parts are produced from 40% recycled steel and are equally 100% recyclable.

Motio is comprised of 42% recycled materials. This breaks down to 18% post-consumer recycled content and 24% pre-consumer recycled content.

RECYCLABLE PACKAGING

The packaging materials used for Motio include 99% corrugated cardboard and 1% polyethylene plastic sheets. This means that the packaging is 100% recyclable. The cardboard used for packaging is produced from up to 25% recycled material and repeated recycling of the cardboard is possible.

Did you know...

- that Motio is 70% recyclable at the end of the product's life?
- that Motio has the possibility of being upholstered in CO₂-neutral fabric?
- that Motio is space-saving and thus resource saving both during transport and use?
- that Motio is a combination of timeless and durable design?
- that Motio is cost efficient and replacements of components are easily manageable?
- that Motio is easy to disassemble for recycling?
- that Motio has a 5 year warranty?
