

# MOVEO

## PRODUCT DESCRIPTION

### A DECISIVE MOVE

Moveo is a handsome, new generation of flip-top table systems designed as the perfect partner to the Motio chair. This sturdy, slim table design is just as attractive with the 40/4 stacking chair, and allows for easy operation and handling by just one person. Moveo provides an excellent concealed and space-saving solution for the provision of power and data on the table top. It is a multi-functional table that is designed to be as flexible as your own corporate agenda.

### ENVIRONMENTAL AMBITIONS AND HEALTHY DECISIONS

Taking a genuine interest in our surroundings is far more than just a noble idea. It is deeply ingrained in HOWE's strategic thinking. Our long-lasting, space-optimising and multi-usage furniture solutions means fewer resources needed; and thus fewer effects on the environment. Thus, our strategic thinking also contributes to the overall LEED-credit.

We have summarised this mind-set in the concept 'GREENTHINKING' which constantly reminds us to act responsibly vis-à-vis our surroundings, be it our business partners or the natural world.

## FEATURES

### SUPPLIERS

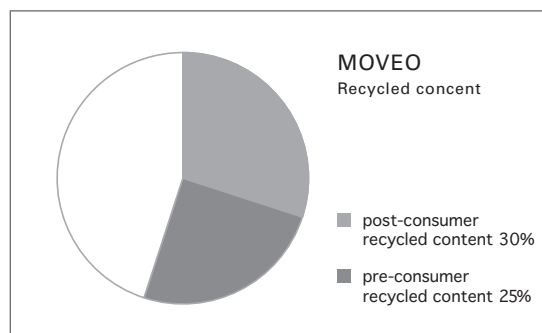

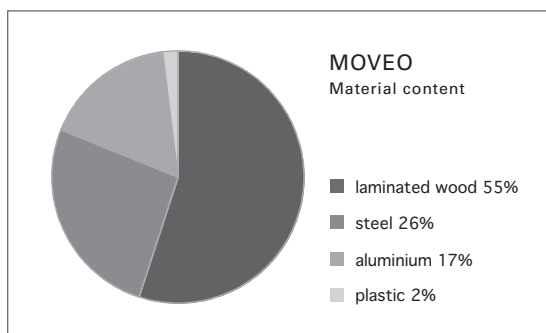

HOWE works closely together with our suppliers to continuously reduce our products' impact on the environment. HOWE is thus setting high environmental demands for both HOWE and our suppliers to comply with.

### VOC

The Moveo laminated table top emits less than 0.04 mg/m<sup>3</sup> formaldehyde which is 69% below the limit value of the E1 standard. What's more, the Moveo laminated table top emits less than 5 µg/m<sup>3</sup> of any other Volatile Organic Compound (VOC), and therefore Moveo ensures a healthy indoor air quality.

### A SUSTAINABLE TABLE BASE

The Moveo table base is 100% recyclable at the end of the product's life. All steel components of the table base are made from 100% recycled steel. All die-cast aluminium components of Moveo are produced from 90% recycled aluminium, which requires only 5% of the energy it would require to produce the parts from new aluminium.

Moveo is comprised of 55% recycled materials. This breaks down to 30% post-consumer recycled content and 25% pre-consumer recycled content.

### RECYCLABLE PACKAGING

The packaging materials used for Moveo include 94% corrugated cardboard and 6% polyethylene plastic sheets. This means that the packaging is 100% recyclable. The cardboard used for packaging is produced from up to 25% recycled material and repeated recycling of the cardboard is possible.

### Did you know...

- that Moveo is 45% recyclable at the end of the product's life?
- that Moveo contains no PVC, which goes for all HOWE products?
- that Moveo is space-saving and thus resource saving both during transport and use?
- that Moveo is a combination of timeless and durable design?
- that Moveo is cost efficient and replacements of components are easily manageable?
- that Moveo is easy to disassemble for recycling?
- that Moveo has a 5 year warranty?
